It is to mention that the name mentioned in the CTO dated 31.01.2022 submitted by the applicant is M/s Sunrise Metal Industries. However, the name mentioned in another Consolidated Consent and Authorization dated 03.09.2024 provided by them is M/s Starsun Alloys PVT LTD.

As, the new CTO dated 03.09.2024 submitted by the applicant does not mention anything about name change of the unit, therefore it was requested to provide CCA copy clearly indicating name change of the unit. The applicant then informed that they have not changed the name of Sunrise Metal, but have instead obtained a new registration under the name Starsun Alloys Pvt. Ltd. and also obtained fresh consent under the name of Starsun Alloys Pvt. Ltd.

1.6. M/s Leadstone Energy Ltd, Hooghly, West Bengal (F.No.23/13/2010-HSMD)

The applicant has requested for the extension of validity period of permission granted for import of 3,000 MT of Lead Scrap (as per ISRI Code: Radio, Racks, Ropes, Rails, Rents, Rakes, Relay) (B1020) *vide* letter dated 13th November, 2023 by at least Six months. It is mentioned that they could not import the full-approved quantity due to some reasons and have imported only 409.500 MT out of the 3,000 MT so far.

1.7. M/s Nile Ltd, Tirupati, Andhra Pradesh (F.No.23-139-2014-HSMD)

The applicant has requested for the extension of validity period of permission granted for import of 23,505 MT of Lead Scrap (as per ISRI Code: Radio, Racks, Ropes, Rails, Rents, Rakes, Relay, Roses, Rono, Roper, Rains, Lead Grids, Lead Paste, Lead Powder, Lead Oxide and other lead waste scrap and Rink) (B1020/A1160) *vide* letter dated 12th April, 2024 by at least Six months. It is mentioned that they had received the Prior Informed Consent (PIC) for the transboundary notification for Import of 5,000 MT of RINKS and RAINS from KBI recycling USA, one year after the exporter has submitted the request to USEPA. Due to delay in sending of the same by US State Department, the last date of shipment in that PIC as forwarded and sent by the USEPA and approved by MoEF&CC has already lapsed by the time we received the PIC, i. e on 20.05.2025.

Due to this delay of the US state department and late receipt of the approved PIC, we could not import any quantity against our present MoEF&CC permission which we had planned for import from the USA.

KBI Recycling, USA has now initiated a fresh request for Prior Informed Consent (PIC)/Transboundary Notification. However, our current MoEF&CC Import Permission is valid only until 11.10.2025. Given the time typically required for the PIC approval process, it is likely that the validity of our permission will have expired or be close to expiry by the time the new PIC is issued. This would again render the approved PIC unusable for import purposes.

We therefore request Ministry to grant an extension of 6 months, i.e. till 11th April 2026 of our current MoEF&CC import permission to enable us to get the PIC accordingly and to have sufficient time to complete the planned imports from the USA.

letter dated 30th January, 2024 by at least Six months. It is mentioned that they have experienced delays in using NOC due to disruptions in Eastern Europe. The conflict caused the closure of several ports, leading to a significant increase in maritime shipping costs and a shortage of containers in the international market. As a result, ships had to be rerouted, resulting in congestion and delays in cargo flows, which further exacerbated global supply chain issues.

2.22. M/s Reliant Recycling, Krishnagiri, Tamil Nadu (F.No.23/77/2023-HSM)

The applicant has requested for the extension of validity period of permission granted for import of 1,500 MT of Used Rubber Tyres Scrap for manufacturing of Crumb Rubber (B3140/B3080) *vide* letter dated 01st September, 2023 by at least Six months. It is mentioned that the production of the machinery that was already installed in our plant was neither good in terms of quantity nor in terms of quality, so as per the advice of experts we decided to install a new set of required machinery in the plant, which took a lot of time to install. Additionally, due to shortage of containers in the international market due to disruptions in Eastern Europe, we could not utilize the quantity given under the above-mentioned permission.
