**1.4. M/s BRS Alloys Pvt. Ltd., Hisar, Haryana (New Application)**

The matter was last discussed in 107<sup>th</sup> meeting of EC held on 9,10 and 13 September, 2021 and the EC after deliberation import of 590 MT of Lead Scrap (ISRI Code: Radio, Racks, Ropes, Rails, Rents, Rakes, Relay) (B1020). However, since the site visit has not been done by CPCB yet, the import permission will be granted only after the receipt of site visit report by CPCB stating unit is complying with SOP and without referring back to the EC.

Now, the CPCB has submitted the Inspection report. As the application is very old, accordingly, the matter is placed before EC for review.

**2.7. Tallampally Rubbers Pvt. Ltd., Bidar, Gujarat Karnataka (F. No. 23-117/2014-HSMD)**

The applicant has requested for the extension of validity period of permission granted for import of 8,600 MT of Used Rubber Tyre Scrap / tube scrap (non –radial/ radial tyres) (B3140) vide letter dated 16th January, 2024 by at least Six months. It is mentioned that they could not import the full-approved quantity due to persistent and unforeseen geopolitical instability in Europe and the Middle East, especially the recent conflict between Iran and Israel. These developments severely disrupted global logistics and impacted commercial transactions, thereby hampering the timely import of the approved quantity.

**2.8. Shree Mangal Radhika Industries, Sonipat, Haryana (F. No. 23-55-2015- HSMD)**

The applicant has requested to include Basel Nos. B3040 in the permission granted for import of 5,050 MT of old/used rubber tyre scrap/tube scrap (B3140/B3080) vide letter dated 2<sup>nd</sup> July, 2025. It is mentioned that this will enable them to source the full range of used rubber scrap materials and ensure smooth and timely completion of our import process.

**2.9. Parshvanath International (Unit II), Alwar, Rajasthan (F. No. 23/38/2024 HSMD)**

The applicant has requested to include Basel Nos. B3040 in the permission granted for import of 3,547 MT of old/used rubber tyre scrap/tube scrap (B3140/B3080) vide letter dated 3<sup>rd</sup> June, 2025. It is mentioned that they have to import old/used rubber tyre scrap/tube scrap (Basel no. B3140 and B3080) as well as rubber scrap and waste rubber compound (Basel no. B3040), hence we request your office to include Basel no. 3040 to smoothen our import process.

*The matter was last discussed in 146<sup>th</sup> meeting of EC and the EC wanted to know why only imported used Ultrasound machine (11 No.) is required for the research and why it cannot be procured from the domestic market. Further, the EC also wanted to know the details of the research to be done, research team, approval certification of the research etc. from the applicant. However, the applicant was not present in the meeting to clarify the same.*

*The applicant has mentioned that Philips India Ltd is the Subsidiary company of the Philips Ultrasound Inc. 22100 Bothell Everett Highway Washington, USA. The R&D team in Philips Innovation Campus from Bangalore is part of the Global Ultrasound organization contributing towards design and development of the Ultrasound products. As a part of development activities, we would like to import our own Used Ultrasound products from my head office from Bothell - USA. These specific systems needed for the development purpose and will be used only for R&D purpose and No commercial activities are involved.*

Accordingly, the matter is placed before EC for deliberation/decision.

### **Import of High End High Value Used Medical Devices**

#### **4.2. M/s Wipro GE Healthcare Pvt. Ltd, Bangalore Rural, Karnataka (F.No.23/42/2024-HSMD)**

The matter was last discussed in 145th meeting of EC and the EC held on 27<sup>th</sup> May, 2025 and the EC after deliberation on the proposal recommended import of 853.92 tons of Refurbished/repared parts (B1110), subject to the condition that this equipment will be disposed after the end of life as per the prevailing Hazardous and Other Wastes (Management & Transboundary Movement) Rules, 2016 as amended from time to time and E-Waste (Management) Rules, 2022 as amended from time to time.

Inadvertently, the above mentioned condition was wrongly mentioned in the minutes of the meeting and the condition that equivalent number of defective components will be re-exported annually as per the prevailing Hazardous and Other Wastes (Management & Transboundary Movement) Rules, 2016 as amended from time to time and E-Waste (Management) Rules, 2022 as amended from time to time is to be replaced with.

Accordingly, the matter is placed before EC for review.

*The matter was earlier discussed in 144<sup>th</sup> meeting of EC held on 29<sup>th</sup> April, 2025 and the EC after deliberation found that the unit is neither involved in recycling nor was able to justify the reason for not trying to use local recycling facilities that are available in the country. The EC also noted that some of the e-waste processors have indicated that adequate quantity of high quality PCBs is not available to them and therefore they have a challenge of capacity utilisation and viability. The EC felt that this had merit and need to be addressed, and at least some high grade PCBs should be supplied in the domestic market. Therefore, EC did not consider the application and asked applicant to first recycle some PCB themselves and also explore possibility to supplied to domestic recycler. Further, if there is any scope to export low grade PCB, may apply afresh.*

Now the applicant has mentioned that they have started procuring some quantities of low - grade PCBs domestically for recycling.

Accordingly, the matter is placed before EC for deliberation/decision.

### **AGENDA ITEM No. 6: ANY OTHER ITEMS WITH PERMISSION OF THE CHAIR**

#### **6.1: Import applications of Used Rubber Tyres Scrap considered in 146<sup>th</sup> Meeting of EC held on 24<sup>th</sup> June, 2025 – reg.**

The EC in its 146<sup>th</sup> meeting, in some of the cases noted that the GST amount paid in last financial year was very high vis a vis production and the applicants were also not present in the meeting for the clarification. Hence, EC asked the applicant to provide the clarification in respect of GST amount paid along with relevant documents.

Accordingly, the applicants have submitted their replies as detailed below:

- a. **M/s P Square Enterprise, Vadodara, Gujarat (F.No.23/82/2023-HSM)** - The applicant clarifies that our unit processes used rubber tyre scrap/tube scrap to manufacture our final product dock bumpers. These are high-value end products, and there is significant value addition in its production, especially compared to other rubber-based end products. As a result, the GST amount paid during FY 2024-25 appears to be high in proportion to the production volume
- b. **M/s Tejasvini Industries, Hisar, Haryana (F.No.23/34/2023 -HSMD)** - The applicant clarifies that goods amounting to Rs. 9,56,17,556.00 were sold during the financial year 2024-25, the same was mentioned in our CA Certificate and an amount of Rs. 1,63,57,099.00 was GST.
- c. **M/s Lead Reclaim and Rubber Products Ltd., Kheda, Gujarat (F.No.23/39/2025-HSM)** - The applicant clarifies that the higher GST payment was primarily due to the nature of our transactions. We procured 100% raw materials from the domestic market, on which GST at the rate of 5% was applicable. However, our finished goods were sold at a GST rate of 18%, thereby resulting in a higher overall GST liability
- d. **M/s Jai Ambe Rubber Products Pvt. Ltd (Unit-2), Chennai, Tamil Nadu (F.No.23/83/2022-HSMD)** - The applicant clarifies that Jai Ambe Rubber Products Pvt. Ltd operates two independent manufacturing units for rubber chips and granules located at separate premises, each having its own valid Consent to Operate (CTO) and Authorization from the respective State Pollution Control Board. However, both the units operate under a single corporate entity and are registered under a common Goods and Services Tax (GST) registration, as per applicable GST rules, which results in high GST amount.

Accordingly, the matter is placed before EC for deliberation/decision.

#### **6.2: Import applications of High End High Value Medical Equipment considered in 146<sup>th</sup> Meeting of EC held on 24<sup>th</sup> June, 2025 – reg.**

The EC in its 146<sup>th</sup> meeting, in some of the cases recommended that details of agreement with end users/buyers and the details of the support team for providing after sale service and spare parts etc. may be obtained from the applicant.

Accordingly, the applicants have submitted their replies along with required documents as per the list below:

- i. M/s MS Pahal Medical System Pvt. Ltd., Lucknow, Uttar Pradesh (F.No.23/60/2024-HSMD)
- ii. M/s Medinnova Systems Private Limited, Vadodara Gujarat (F.No.23/100/2024- HSM)

**6.3.: M/s Nine Corporation, Gandhinagar, Gujarat (F.No.23/8/2018-HSMD)**

The matter was last discussed in 146<sup>th</sup> meeting of EC and the EC after deliberation on the proposal, recommended import of 29,448 MT of old/used rubber tyre scrap/tube scrap (B3140 and B3080). Further, 50% or 25,000 MT, whichever is less, of the aforesaid recommended quantity (i.e. 14,724 MT) may be granted now and the rest 50% (i.e. 14,724 MT) may be granted after submission of EPR Compliance details of previous financial year by the applicant and subsequent satisfactory verification report by the CPCB without referring the application to EC again. However, EC also recommended that details of the CTO of M/s Vinayak biofuels among the list of users may be verified from CPCB.

Now, CPCB has provided the details. Further, the applicant vide email dated 10.07.2025 also submitted that while we do import scrap tyres to ensure a steady supply of quality input material, we also procure a significant quantity from domestic sources. In the last financial year, out of our total annual production of 44172 metric tonnes, we sold 530 metric tonnes of Used tyre scrap-Crumb Rubber to Vinayak Bio Fuels. The material sold to them was entirely procured from domestic sources.

During our domestic procurement, we often receive mixed material, including scrap tyres from bicycles, two-wheelers, and other low-quality or unsuitable types of material. This kind of material is not viable for high-end recycling processes. In such case we sold it to Vinayak Bio Fuels who can utilize it appropriately in their authorized pyrolysis plant.

Accordingly, the matter is placed before EC for deliberation/decision.
