Based on the site visit by Central Pollution Control Board the Committee noted that the applicant should carry out the following improvements and submit the evidence of implementation to Ministry and CPCB for further consideration of the case for import in the Ministry:

- i. The unit should demarcate the storage of raw material, storage of finished product;
- ii. Effective air pollution control system to be provided on refining/alloying pots;
- iii. pH of alkaline scrubber to be maintained all the time around 10;
- iv. The unit is required to make efforts to minimise fugitive emission;
- v. Awareness among the workers be created towards the hazards associated with lead processing/exposure;
- vi. Housekeeping needs high level efforts for improvement such as impervious flooring, storage of raw material etc;
- vii. The flooring of unit required serious attention;
- viii. Drums/ barrels with raw material/empty barrels should be removed immediately from the shed.

Now the applicant submitted documental proof and photos of the improvements made by them as suggested by the Committee.
