

Decision of Ministry of Environment, Forest and Climate Change with respect to import and export of hazardous and other waste under the Hazardous and other Wastes (Management & Transboundary Movement) Rules, 2016 as approved by the Competent Authority on the basis of decision of the 101st meeting of Expert Committee held on 12, 13 and 14th January, 2021 for appraisal of such applications

On the basis of agenda-wise detailed deliberation, following are the decisions of the Expert Committee:

Date: 12th January, 2021

AGENDA ITEM NO.1. IMPORT OF LEAD SCRAP

1.1. M/s Shri. Sabhari Smelters(P) Ltd, Chennai, Tamilnadu (F. No. 23/63/2017-HSMD)

The application pertains to import of 15,000 MT of Lead Scrap (ISRI Code: Rains, Radio, Rakes, Relays, Ropes, Rails, Racks and Rents). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent Order No. 1908122598480 dated 19/05/2019 is valid up to 31/03/2021 and Authorization No. 18HFC11630005 dated 09/04/2018 is valid up to 08/04/2023. The consented capacity for All Kinds of Lead Alloys in the form of Lead ingots is 875 MT/Month and for Lead Dross & Bag Filter Powder is 125 MT/Month. The unit has working strength of 12 no. of employees. The date of establishment of unit is 24/01/2006 and the actual date of operation is October, 2010. The production in last 3yrs is as follows:

2015-16	Nil
2016-17	420 MT
2017-18	7793.459 MT
2018-19	8262.071 MT
2019-20	10311.721 MT

The export of high purity lead /lead alloys/lead components is 199.156 MT (FY 2017-18), 767.685 MT (FY 2019-20) and 969.518 (FY 2020-21). The previous permission dated 17/05/2018 was issued for the import of 2,000 MT of lead scrap (ISRI Code: Radio, Racks, Relay, Ropes, Rails and Rents) out of which 1,879 MT has been imported till date. Last site visit was done on 22/01/2018 by CPCB.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of total 5,600 MT of Lead Scrap (ISRI Code: Rents, Radio, Rakes, Relays, Ropes, Rails, Racks and Rains with not more than 2% of liquid/electrolyte by weight in a given lot/consignment/container). The 50% of the quantity recommended above may be granted after submission of site visit report by CPCB in respect of RAINS stating compliance of SOP without referring the application to the EC.

1.1.2. M/s Supreme Batteries Pvt. Ltd, Rangareddy District, Telangana (F. No.23/18/2019-HSMD)

The application pertains to import of 12,000 MT of Lead Scrap (as per ISRI Code: Radio, Racks, Ropes, Relay, Rails, Rents Rakes and Rains). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent order and Authorization No. 231-MHB/TSPCB/ZOII/CFO/2018-1264 dated 17/09/2018 is valid up to 31/08/2021. The consented capacity for Dry Batteries is 400 Nos./day and Refined lead and alloys of lead is 60 MT/day. The unit has working strength of 97 to 120 nos. of employees. The date of establishment of unit is 09/01/2009 and the actual date of operation is 04/06/2011. The production in last 5 yrs is as follows:

2015-16	6087.100 MT
2016-17	6382.638 MT
2017-18	4897.328 MT
2018-19	4790.032 MT
2019-20	4617.419 MT

The unit has exported 7,000 KG of high purity lead /lead alloys/lead components in 2018-19. The previous permission dated 22/03/2019 was issued for the import of 8,000 MT of lead scrap out of which applicant has imported only 113.443 MT. Last site visit was done on 26/01/2019 by CPCB.

Recommendation: The EC noted that the applicant has imported only 113.443 MT out of 8,000 MT granted vide permission letter 22/03/2019. In view of that, EC recommended to import the balance quantity of 7,886.557 MT of Lead Scrap (ISRI Code: Rents, Radio, Rakes, Relays, Ropes, Rails, Racks and Rains with not more than 2% of liquid/electrolyte by weight in a given lot/consignment/container) of the permission dated 22/03/2019.

1.1.3. M/s Raj Metal Industries, Howrah District, West Bengal (F. No. 23-40/2010-HSMD)

The application pertains to import of 8,290 MT of Lead Scrap (as per ISRI Code: Radio, Racks, Ropes, Relay, Rails, Rents and Rakes). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent Order No. C0109079 dated 08/11/2017 is valid up to 31/07/2022 and Authorization No. No. 78/2S(HW)-2353/2008 dated 19/04/2018 is valid upto 31/03/2023. The consented capacity for Lead ingot is 490 MT per month. The unit has working strength of 67 no. of employees. The date of establishment of unit is 14/04/2005 and the actual date of operation is 12/03/2006. The production in last 5 years is as follows:

2015-16	475.00 MT
2016-17	1,040.217 MT
2017-18	1,725.951 MT
2018-19	158.839 MT
2019-20	1,650.55 MT

The export of high purity lead/lead alloys/lead components in last 5 years is 135 MT for 2018-19 and 1,035 MT for 2019-20. Site visit was done on 14/06/2018 by CPCB. The previous permission dated 17/05/2019 was issued for the import of 2,200 MT of Lead Scrap (as per ISRI Code: Radio, Racks, Ropes, Relay, Rails, Rents and Rakes) out of which 780 MT has been imported till date.

Recommendation: The EC noted that the applicant has imported only 780 MT out of 2,200 MT granted vide permission letter 17/05/2019. In view of that, EC recommended to import the balance quantity of 1,420 MT of Lead Scrap (as per ISRI Code: Radio, Racks, Ropes, Relay, Rails, Rents and Rakes) of the permission dated 17/05/2019.

1.1.4. M/s Bhagwati Mettalloys Pvt. Ltd, Patna, Bihar (F. No. 23-168/2015-HSMD)

The application pertains to import of 4,320 MT of Lead scrap (ISRI Code: Radio, Racks, Relay, Ropes, Rails, Rents). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent Order No. PT(NOC) 3466/11 B-2105 dated 24/04/2019 is valid up to 31/03/2024 and Authorization No. HW/B-352 dated 17/08/2017 is valid up to 16/04/2022. The consented capacity for Lead Ingots is 9 MT per day. The unit has working strength of 22 no. of employees. The date of establishment of unit is 02/12/2011 and the actual date of operation of unit is 16/07/2012. The production in last 3 years is as follows:

2017-18	1,466.972 MT
2018-19	1,523.828 MT
2019-20	1,722.881 MT

The unit has not exported anything yet. Last site visit was done on 04/02/2016 by CPCB. The previous permission dated 18/06/2018 was issued for the import of 1,500 MT of lead Scrap (ISRI Code: Radio, Racks, Relay, Ropes, Rails, Rents) out of which 1,073 MT has been imported.

Recommendation: The EC noted that the applicant has imported only 1,073 MT out of 1,500 MT granted vide permission letter 18/06/2018. In view of that, EC recommended to import the balance quantity of 427 MT of Lead Scrap (as per ISRI Code: Radio, Racks, Ropes, Relay, Rails, Rents and Rakes) of the permission dated 18/06/2018. Since last site visit was done by CPCB on 04/02/2016, the EC also recommended site visit by CPCB when the plant is in operation.

1.1.5. M/s Recmet Alloys Pvt. Ltd, Vadodara, Gujarat (F. No. 23-44/2014-HSMD)

The application pertains to import of 9,000 MT of Lead Scrap (ISRI Code: Radio, Racks, Relay, Ropes, Rails, Rents). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent order and Authorization No. GPCB-BRCH-B-CCA-169/ID-38577 dated 25/05/2016 is valid up to 05/02/2021. The consented capacity for Refined lead (99.97%) & Lead alloys is 8,673.19 MTA. The unit has working strength of 45 no. of employees. The date of establishment of unit is 28/10/2010 and the actual date of operation is 26/05/2016. The production in last 3yrs is as follows:

2017-18	1,888.210 MT
2018-19	2,071.353 MT
2019-20	1,134.049 MT

The unit has not done any export yet. Last site visit was done on 18/11/2016 by CPCB. The previous permission dated 24/01/2017 was issued for the import of 4,000 MT of lead Scrap (ISRI Code: Radio, Racks, Relay, Ropes, Rails, Rents) out of which 912 MT has been imported.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of total 940 MT of Lead Scrap (ISRI Code: Rents, Radio, Rakes, Relays, Ropes, Rails, Racks). The 50% of the quantity recommended above may be granted after submission of site visit report by CPCB stating compliance of SOP without referring the application to the EC.

1.1.6. M/s Etasha Batteries (P) Ltd, Hyderabad

The application pertains to import of 70,000 MT of Lead Scrap (ISRI Code: Radio, Rakes, Relays, Ropes, Rails, Rains). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent order and Authorization No. 158-RO-HYD/TSPCB/ZOH/TS-iPass/CFO/201789 dated 05/06/2017 is valid up to 31/05/2022. The consented capacity for Refined Lead Alloys is 7,200 MT per Annum. The unit has working strength of 46 no. of employees. The date of establishment of unit is 27/03/2017 and the actual date of operation is 05/06/2017. The production in last 5 years is as follows:

2015-16	NIL
2016-17	NIL
2017-18	1260 MT
2018-19	1430 MT
2019-20	1117 MT

The unit has not done any export yet. The unit has not been visited yet by CPCB.

Recommendation: Since the unit has not been visited yet by CPCB, the EC therefore recommended site visit by CPCB when the plant is in operation.

1.1.7. M/s Sither Metal Industry, Tuticorin, Tamilnadu (F. No.23-280/2014-HSMD)

The application pertains to import of 7,500 MT of Lead scrap (ISRI Code: Radio, Racks, Relay, Ropes, Rails, Rents and Rains). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent Order No. 1906121210061 dated 26/02/2019 which is valid up to 31/03/2023 and Authorization No. 18HFC11883001 dated 04/12/2018 is valid up to 31/12/2023. The consented capacity for Lead ingots is 30 MT per day. The unit has working strength of 35 no. of employees. The date of establishment of unit is 05/09/2012 and the actual date of operation is 11/04/2014. The production in last 5 years is as follows:

2015-16	1,336.735 MT
2016-17	2,167.380 MT
2017-18	2,852,361 MT
2018-19	3,596.425 MT
2019-20	3,435.720 MT

The unit has not done any export yet. The unit has not been visited yet by CPCB.

Recommendation: Since the unit has not been visited yet by CPCB, the committee therefore recommended site visit by CPCB when the plant is in operation.

1.1.8. M/s Pratham Metal Industries, Saharanpur, U.P.

The application pertains to import of 4,500 MT of (ISRI Code: Radio, Racks, Relay, Ropes, Rails, Rents, Rains). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent order no. 47028/UPPCB/Saharanpur (UPPCBRO)/CTO/Water/SAHARANPUR/2019 dated 10/03/2019 is valid up to 31/12/2020 and Authorization No. 10103 dated 11/12/2019 is valid up to 31/12/2024. The consented capacity for Lead Ingots is 300 MT per month. The unit has working strength of 7 no. of employees. The year of establishment and operation is 2013. The production in last 5 years is as follows:

2015-16	106.758 MT
2016-17	134.763 MT
2017-18	401.831 MT
2018-19	1417.184 MT
2019-20	900.93 MT

The unit has not done any export yet. The unit has been visited by CPCB on 02/01/2021. Now CPCB submitted the site inspection report to the Ministry suggesting some improvements.

Recommendation: Based on the site inspection report submitted by CPCB, some improvement has been suggested by CPCB. The EC recommended that no import should be permitted unless the improvement has been made by the applicant and verified by CPCB. On receipt of verification report from CPCB stating compliance of SOP, the total quantity of 650 MT of Lead Scrap (ISRI Code: Rents, Radio, Rakes, Relays, Ropes, Rails, Racks) may be granted without referring the application to the EC.

1.1.9. M/s Geon International, Baddi, Himachal Pradesh

The application pertains to import of 6,000 MT of Lead Scrap/Batteries Scrap. The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent Order No. HPSPCB/PCB-ID 10666/1870-03 dated 26/09/2018 is valid up to 30/03/2020 and Authorization No. HPSPCB/HWMR/10666 dated 13/11/2019 is valid up to 31/03/2024. The consented capacity is 12000 MT per annum. The unit has working strength of 57 nos. of employees. The date of establishment of unit is 04/09/2006 and the actual date of operation is 23/07/2009. The production in last 5 years is as follows:

2015-16	10527.74 MT
2016-17	10978.99 MT
2017-18	8046.37 MT
2018-19	7262.96 MT
2019-20	11516.79 MT

The unit has not done any export yet. Since the site had not been visited yet by CPCB, site visit letter has sent to CPCB.

Recommendation: The representative of CPCB informed that the site inspection has not been done yet. The EC therefore deferred the application for want of site inspection report by CPCB.

1.1.10. M/s Stalwart Alloys India Pvt. Ltd, Kurukshetra, Haryana (F. No.23-268/2014-HSMD)

The application pertains to import of 3,000 MT of Lead Scrap and batteries scrap. The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent Order No. HSPCB/Consent/: 329978217KURCTO3495942 dated 31/03/2017 is valid up to 30/03/2021 and Authorization No. HSPCB/HWR/2017/946 dated 31/03/2017 is valid up to 30/03/2022. The consented capacity for Lead sub oxide is 15 MT per day and Remelted lead is 60 MT/Day. The unit has working strength of 150 nos. of employees. The date of establishment of unit is 06/12/2013. The production in last 5 years is as follows:

2015-16	5116.198 MT
2016-17	9752.299 MT
2017-18	16427.864 MT
2018-19	26957.035 MT
2019-20	28172.864 MT

The unit has not done any export yet. The previous permission dated 24/01/2017 was issued for the import of 3,000 MT of lead scrap (ISRI Code: Radio, Rakes, Relays, Ropes, Rails, Rents and Racks) out of which 3,000 MT has been imported. Last site visit was done by CPCB on 25/10/2016.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of total 3,000 MT of Lead Scrap (ISRI Code: Rents, Radio, Rakes, Relays, Ropes, Rails, Racks). The 50% of the quantity recommended above may be granted after submission of site visit report by CPCB stating compliance of SOP without referring the application to the EC.

1.1.11. M/s Bharat Chemical Industries, Rohtak, Haryana

The application pertains to import of 5,000 MT of Lead Scrap and batteries scrap. The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent order no. HSPCB/Consent/: 313093420ROHCTO8074040 dated 17/09/2020 which is valid up to 30/09/2025 and Authorization No. HSPCB/HWR/2016/975 dated 29/12/2016 is valid up to 26/12/2021. The consented capacity for Used Lead Acid Battery is 2500 MT/annum. The unit has working strength of 76 nos. of employees. The date of establishment of unit is 20/06/2001 and the actual date of operation is 01/10/2001. The production in last 5 years is as follows:

2015-16	138.040 MT
2016-17	140.088 MT
2017-18	157.915 MT
2018-19	687.306 MT
2019-20	2878.720 MT

The unit has not done any export yet. The unit has not been visited yet by CPCB.

Recommendation: Since the unit has not been visited yet by CPCB, the EC therefore recommended site visit by CPCB when the plant is in operation.

1.1.12. M/s Raj Finoxides Pvt. Ltd, Hooghly, West Bengal (F. No. 23-237/2012-HSMD)

The application pertains to import of 7,800 MT of Lead Scrap (ISRI code: Radio, Racks, Ropes, Rakes, Rails, Rents and Relay). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent Order No. C083840 dated 12/09/2016 is valid up to 31/08/2021 and Authorization No. 109/25(HW)-871/2000-2001(pt. 41) dated 19/04/2016 is valid up to 31/10/2020. The consented capacity for Used lead acid batteries/lead scrap is 7800 MTA. The unit has working strength of 62 nos. of employees. The date of establishment of unit is 11/01/1994 and the actual date of operation is 02/04/1994. The production in last 5 years is as follows:

2015-16	15,705.723 MT
2016-17	18,484.942 MT
2017-18	19,120.862 MT
2018-19	20,418.448 MT
2019-20	21,757.026 MT

The export of high purity lead/lead alloys/lead components in last 5 years is 593.368 MT for 2017-18, 495.133 MT for 2018-19 and 1,840.916 MT for 2019-20. The previous permission dated 02/11/2012 was issued for the import of 2,600 MT of lead scrap (Radio, Racks, Rakes, Ropes, Rents, Relay and Rails).

The matter was last discussed in the 96th meeting of Expert Committee held on 10th April, 2019 and the Committee recommended for site visit by CPCB. CPCB visited the unit on 01/08/2019. Now CPCB submitted site inspection report to the Ministry indicating that unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 3,500 MT of Lead Scrap (ISRI Code: Radio, Racks, Rails, Relay, Ropes, Rent, Rakes).

1.1.13. M/s Electine ARN Alloys Pvt. Ltd, Kolar, Karnataka

The application pertains to import of 4,320 MT of Lead Scrap (as per ISRI Code: Radio, Racks, Ropes, Relay, Rails, Rents and Rakes). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent Order No. AW-305642 dated 28/03/2018 is valid up to 30/06/2022 and Authorization No. 307013 dated 27/07/2018 is valid up to 30/06/2022. The consented capacity for Lead Ingots and lead alloys is 1,200 MT per month. The unit has working strength of 10 nos. of employees. The date of establishment of unit is 17/06/2014 and the actual date of operation is 28/08/2017. The production in last 5 years is as follows:

2015-16	Nil
2016-17	641.053 MT
2017-18	2,619.389 MT
2018-19	2,844.673 MT
2019-20	1,133.026 MT

The unit has not done any export yet.

The matter was last discussed in the 92nd meeting of Expert Committee held on 24th October, 2018 and the Committee recommended for site visit by CPCB. CPCB done the site visit on 03/04/2019 and CPCB submitted the site inspection report suggesting some improvements of the unit. The applicant submitted Photographs as documental proof of improvements suggested by the CPCB. During the meeting representative of CPCB informed that evidence submitted by applicant is satisfactory and unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB, improvement carried out thereafter and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 1,300 MT of Lead Scrap (ISRI Code: Radio, Racks, Rails, Relay, Ropes, Rent, Rakes).

1.1.14. M/s Starlit Power Systems Ltd, Mewat District, Haryana (F. No. 23-86/2014-HSMD)

The application pertains to import of 5,000 MT of Lead Scrap (ISRI code: Radio, Racks, Rails, Relay, Ropes, Rent and Rakes). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent Order No. HSPCB/Consent/ 313092720GSMWCTO7878672 dated 26/08/2020 is valid up to 30/09/2021 and Authorization No. HWM/GSMW/2020/5466811 dated 27/08/2020 is valid up to 30/09/2021. The consented capacity for Lead alloy is 10 Metric Tonnes/Day, for Lead oxide is 12 Metric Tonnes/Day, for Red lead is 3 Metric Tonnes/Day, for Plastic Containers is 960 Numbers/Day, for pure sulphuric acid 1.6 Kilo Liters/Day, for Lead acid battery plates and other lead scrap ashes residues etc. is 50 Metric Tonnes/Day and for lead ingots 40 Metric Tonnes/Day. The unit has working strength of 86 nos. of employees. The date of establishment of unit is 24/04/1991 and the actual date of operation is 28/04/1992. The production in last 5 years is as follows:

2015-16	1,342 MT
2016-17	382 MT
2017-18	197 MT
2018-19	364 MT
2019-20	107 MT

The export of high purity lead/lead alloys/lead components is 24 MT for 2015-16.

The matter was discussed in the 95th meeting of Expert Committee held on 14th and 15th March, 2019 and the Committee recommended for site visit by CPCB. CPCB visited the unit on 28/05/2019. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 625 MT of Lead Scrap (ISRI Code: Radio, Racks, Rails, Relay, Ropes, Rent, Rakes).

1.1.15. M/s Siyarco Industries, Jodhpur, Rajasthan

The application pertains to import of 1,000 MT of Lead Scrap (as per ISRI Code: Radio, Racks, Ropes, Relay, Rails, Rents and Rakes). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent Order No. 2017-2018/HSW/3881 dated 16/05/2017 is valid up to 30/04/2022 and Authorization No. RPCB/HWM/2017-2018/HSW/HSW/40 dated 16/05/2017 is valid up to 30/04/2022. The consented capacity for Lead Ingots is 600 MTA and for Brass/Copper/Zinc Ingots is 2,400 MTA. The unit has working strength of 25 nos. of employees. The date of establishment of unit is 11/02/2000 and the actual date of operation is 31/03/2000. The production in last 4yrs is as follows:

2016-17	4.736 MT
2017-18	Nil
2018-19	42.526 MT
2019-20	25.10 MT

The unit has not exported yet.

The matter was discussed in the 95th meeting of Expert Committee held on 14th and 15th March, 2019 and the Committee recommended for site visit by CPCB. CPCB visited the unit on 28/05/2019. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 20 MT of Lead Scrap (ISRI Code: Radio, Racks, Rails, Relay, Ropes, Rent, Rakes).

1.1.16. M/s Aryan Metal Industries, Kolar, Karnataka

The application pertains to import of 5,000 MT of Lead Scrap (ISRI code: Radio, Racks, Rails, Relay, Ropes, Rent and Rakes). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent Order No. AW-304564 dated 13/12/2017 is valid up to 30/06/2022 and Authorization No. 307656 dated 06/09/2018 is valid up to 30/06/2022. The consented capacity for Lead and lead alloys, Ingots is 700 MT per month. The unit has working strength of 78 nos. of employees. The date of establishment of unit is 15/02/2013 and the actual date of operation is 13/05/2014. The production in last 5 years is as follows:

2015-16	387.71 MT
2016-17	1,445.78 MT
2017-18	969.99 MT
2018-19	1,074.24 MT
2019-20	940.46 MT

The unit has not exported yet. The matter was discussed in the 96th meeting of Expert Committee held on 10th April, 2019 and the Committee recommended for site visit by CPCB. CPCB submitted the site inspection report to the Ministry. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 650 MT of Lead Scrap (ISRI Code: Radio, Racks, Rails, Relay, Ropes, Rent, Rakes).

1.1.17. M/s D.K. Metal Works, Palgarh, Maharashtra

The application pertains to import of 2,100 MT of Lead Scrap (Radio, Rakes, Rent, Relay, Ropes, Rails and Racks). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent order and Authorization No. BO/MPCB/RO(HQ)/KN/CO/B-2012001312 dated 30/12/2020 is valid up to 30/09/2025. The consented capacity for Lead & Lead Ingots is 2400 MT per annum. The unit has 17 nos. of employees. The year of establishment of unit and year of operation is 2015. The production in last 5 years is as follows:

2015-16	242.253 MT
2016-17	879.952 MT
2017-18	739.139 MT
2018-19	728.820 MT
2019-20	896.05 MT

The unit has not exported yet. The matter was discussed in the 96th meeting of Expert Committee held on 10th April, 2019 and the Committee recommended for site visit by CPCB. CPCB submitted the site inspection report suggesting some improvements. Now the applicant submitted some photographs as proof of improvement suggested by CPCB.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of total 400 MT of Lead Scrap (ISRI Code: Rents, Radio, Rakes, Relays, Ropes, Rails, Racks). The 50% of the quantity recommended above may be granted after submission of verification report by CPCB stating compliance of SOP without referring the application to the committee.

1.1.18. M/s Sterling Lead Pvt. Ltd, Kolhapur, Maharashtra (F. No. 23-42/2009-HSMD)

The application pertains to import of 7,200 MT of Lead scrap (Radio, Rakes, Rent, Relay, Ropes, Rails, Relay and Rains). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent order and Authorization No. BO/MPCB/RO(HQ)/CR/B-1810000486 dated 10/10/2018 is valid up to 31/07/2021. The consented capacity for Lead alloys & lead ingots is 3,600 MTA. The unit has 86 nos. of employees. The date of establishment of unit is 20/04/2006 and the actual date of operation is 16/12/2008. The production in last 5 yrs is as follows:

2015-16	330.27 MT
2016-17	1150.68 MT
2017-18	1644.51MT
2018-19	1276.21 MT
2019-20	1254.61 MT

The unit has not exported yet. The previous permission dated 08/06/2009 was issued for the import of 2,160 MT of lead scrap (ISRI Code: Radio, Racks and Ropes).

The matter was discussed in the 97th meeting of Expert Committee held on 3rd & 4th June, 2019 and the Committee recommended for site visit by CPCB. CPCB visited the unit on 07/11/2019. CPCB submitted the site inspection report suggesting some improvements. The applicant has also submitted some photographs as proof of improvement suggested by CPCB. During the meeting representative of CPCB informed that evidence submitted by applicant is satisfactory and unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB, improvement carried out thereafter and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 740 MT of Lead Scrap (ISRI Code: Radio, Racks, Rails, Relay, Ropes, Rent, Rakes).

1.1.19. M/s Jammu Pigments Ltd, Kathua, J&K (F. No.23-58/2009-HSMD)

The application pertains to import of 10,000 MT of Lead Scrap (ISRI Code: Rains) and 5,000 MT Lead Scrap (ISRI code: Radio, Racks, Rails, Relay, Ropes, Rent & Rakes). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent order and Authorization No. SPCB/Digital/1906486329 of 2020 dated 29/12/2020 is valid up to 29/12/2022. The consented capacity for Lead Ingots/Lead Alloys/lead Sinter/Lead Block is 22,788 MT per year. The unit has 75 nos. of employees. The date of establishment of unit is 29/08/2005 and the actual date of operation is 03/06/2007. The production in last 5 years is as follows:

2015-16	9,344.395 MT
2016-17	18,486.228 MT
2017-18	20,058.443 MT
2018-19	16,502.162 MT
2019-20	26,315.249 MT

The export in last 2 years is as follows:

FY	Lead Ingots (MT)	Lead Alloys (MT)
2018-19	949	125
2019-20	622	1213

The previous permission dated 28.12.2017 was issued for the import of 5,000 MT of Lead Scrap (ISRI code: Radio, Racks, Rails, Relay, Ropes, Rent, Rakes).

The matter was last discussed in the 99th Meeting of the Expert committee held on 3rd, 4th, 8th & 9th June, 2020 and after going through the photograph, CPCB representative suggests that revisit of the unit is required to check the improvements carried out by the applicant. Based on the suggestion, the

committee recommended re-visit by CPCB. CPCB re-visited the unit on 24/12/2020. Now CPCB has submitted the verification report complying with SOP.

Recommendation: Based on the verification report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 15,000 MT of Lead Scrap (ISRI Code: Rents, Radio, Rakes, Relays, Ropes, Rails, Racks and Rains with not more than 2% of liquid/electrolyte by weight in a given lot/consignment/container).

1.1.20. M/s Goldstar Power Ltd, Jamnagar, Gujarat (F. No.23-78/2009-HSMD)

The application pertains to import of 21,600 MT of Lead Scrap (as per ISRI Code: Radio, Racks, Relay, Rents, Rails and Ropes). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent order and Authorization No. AWH-90853 dated 30/01/2018 is valid up to 26/12/2022. The consented capacity for Lead Ingots is 1,809 MT per month. The unit has working strength of 34 nos. of employees. The date of establishment of unit is 12.07.1999. The production in last 5 years is as follows:

2015-16	1,721 MT
2016-17	2,438 MT
2017-18	1,615 MT
2018-19	1,790 MT
2019-20	1,147 MT

The unit has not exported yet.

The matter was last discussed in the 99th Meeting of the Expert committee held on 3rd, 4th, 8th & 9th June, 2020 and after going through the photograph, CPCB representative suggests that revisit of the unit is required to check the improvements carried out by the applicant. Based on the suggestion, the committee recommended re-visit by CPCB. CPCB re-visited the unit on 23/12/2020. Now CPCB has submitted the verification report stating unit is complying with SOP.

Recommendation: Based on the verification report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 1,100 MT of Lead Scrap (ISRI Code: Rents, Radio, Rakes, Relays, Ropes, Rails, Racks).

1.1.21. M/s Vimal Petrothin Pvt. Ltd, Haridwar, U.K.

The application pertains to import of 1,500 MT of Lead scrap (ISRI Code: Radio, Ropes, Racks, Rakes, Rails, Rents, Relay, Roses and Rains). The applicant has furnished Form 5, Justification for import, Process flow chart indicating adequate pollution control equipment, Lead analysis report in soil, air, water, stack and blood of the workers is within the prescribed limit. The Consent order UEPPCB/Ho/Con/V-88/2019/289 dated 16/05/2019 is valid up to 31/03/2020 and Authorization No. UEPPCB/Ho/Haz/Reg-20/263 dated 10/05/2019 is valid up to 31/03/2024. The consented capacity for Lead and Lead Alloys is 2,166 MT/month and for Lead Oxide is 200 MT/month. The unit has 79 nos. of employees. The date of establishment of unit is 01/06/2009 and the actual date of operation is 10/01/2014. The production in last 5 years is as follows:

2015-16	3,901 MT
2016-17	7,021 MT
2017-18	9,594 MT
2018-19	9,807 MT
2019-20	9,862 MT

The unit has exported 201.582 MT in 2019-20.

The matter was last discussed in the 99th Meeting of the Expert committee held on 3rd, 4th, 8th, & 9th June, 2020 and the committee recommended visit by CPCB. CPCB visited the unit on 02/01/2021. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 4,440 MT of Lead Scrap (ISRI Code: Radio, Racks, Rails, Relay, Ropes, Rent, Rakes).

Date: 13th January, 2021

AGENDA ITEM NO.2. IMPORT OF USED RUBBER TYRES SCRAP)

2.1. M/s Balaji Rubber Industries Pvt. Ltd, Tamilnadu (F. No. 23-133/2015-HSMD)

The application pertains to import of 12,000 MT of Waste rubber tyres scrap and tube scrap (B3080) for manufacturing of crumb rubber and reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate no. 1808112452752 dated 14/06/2018 valid up to 31/03/2023 and authorisation no. 18HFC5153936 dated 05/12/2018 is valid up to 04/12/2023. The annual consented capacity as per CTO is 900MT/month for Reclaim Rubber Sheet. The unit has work strength of 154 no. of employees. The date of establishment of the unit is 15/10/1985 and the actual date of operation is 20/09/1989. The unit has connected load of 2566 KW (3417 HP + 10 KVA+ 7.3 KW LL) and electricity consumption of 72,40,812 units during FY 2019-20. The GST Paid in last year is Rs. 4,29,65,189/-.

The production of the unit in last 5 years is:

2015-16	7768.35 MT
2016-17	6967.60 MT
2017-18	8145.94 MT
2018-19	8443.35 MT
2019-20	8919.24 MT

The unit has not exported any product yet. The previous permission was issued for the import of 5,000 MT of used rubber tyres scrap vide OM dated 14/03/2016 against which 4,000 MT was imported. Last site visit was done on 03/11/2015.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of total 2,850 MT of Waste rubber tyres scrap and tube scrap (B3080) for manufacturing of crumb rubber and reclaim rubber. The 50%

of the quantity recommended above may be granted after submission of site visit report by CPCB stating compliance of SOP without referring the application to the EC. The applicant should submit the following documents with its application for next financial year:

- a. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.
- b. The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.
- c. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.
- d. Declaration certifying that the imported waste tyres were used for the intended purpose.

2.2. M/s Horizon Reclaim (India) Pvt. Ltd, Haridwar, Uttarakhand (F. No.23-112/2013-HSMD)

The application pertains to import of 12,000 MT of Waste rubber tyres scrap and tube scrap (B3080) for manufacturing of crumb rubber and reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consolidated consent to operate and authorisation no. AHW-18183 dated 21/03/2018 is valid up to 31/03/2023. The annual consented capacity as per CTO is 2,000 MT per month for Reclaim Rubber and Crumb. The unit has work strength of 55 no. of employees. The actual date of operation is 14/09/2007. The unit has connected load of 500 KVA and electricity consumption of Rs. 1,07,05,025/- in FY 2019-20. The GST Paid in last year is Rs. 1,65,54,947/-

The production of the unit in last 5 years is:

2015-16	6,630 MT
2016-17	5,590 MT
2017-18	8,020 MT
2018-19	10,670 MT
2019-20	11,520 MT

The unit has not exported any product yet. The previous permission was issued for the import of 10,000 MT of used rubber tyres vide OM dated 5/07/2018. Last site visit was done by CPCB on 06/01/2016.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of total 3,700 MT of Waste rubber tyres scrap and tube scrap (B3080) for manufacturing of crumb rubber and reclaim rubber. The 50% of the quantity recommended above may be granted after submission of site visit report by CPCB stating compliance of SOP without referring the application to the EC. The applicant should submit the following documents with its application for next financial year:

- a. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of

capacity of unit, the quantity processed, power load and consumption in previous financial year.

- b. The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.
- c. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.
- d. Declaration certifying that the imported waste tyres were used for the intended purpose.

2.3. M/s Fishfa Rubbers Ltd, Rajkot, Gujarat (F. No.23-80/2014-HSMD)

The application pertains to import of 24,000 MT of old/used rubber tyres scrap/tube scrap (B 3140) for manufacturing of reclaim rubber/crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consolidated consent to operate and authorisation no. AWH-104501 dated 06/10/2019 is valid up to 29/12/2024. The consented capacity as per CTO is 2,000 MT/month for Reclaim and depolymer rubbers and is 2,000 MT per month for crumb Rubber. The unit has work strength of 275 no. of employees. The actual date of operation is 11/07/2010. The unit has connected load of 1400 KVA and electricity consumption of 75,84,925 units during 2019-20. The GST Paid in last year is Rs. 8,00,04,170/-. The production of the unit in last 5 years is:

2015-16	16,998.97 MT
2016-17	16,018.94 MT
2017-18	20,355.77 MT
2018-19	23,539.24 MT
2019-20	20,694.20 MT

The export data of last 5 years is:

2015-16	15,015.774 MT
2016-17	13,554.090 MT
2017-18	14,961.780 MT
2018-19	15,859.360 MT
2019-20	14,510.074 MT

The previous permission was issued for the import of 6,000 MT of used rubber tyres scrap/tube scrap vide OM dated 03/05/2018 against which 1,764 MT was imported. Last site visit was done on 10/03/2017 by CPCB.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of total 13,150 MT of old/used rubber tyres scrap/ tube scrap (B 3140) for manufacturing of reclaim rubber/crumb rubber. The 50% of the quantity recommended above may be granted after submission of site visit report by CPCB stating compliance of SOP without referring the application to the EC. The applicant should submit the following documents with its application for next financial year:

- a. **Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.**
- b. **The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.**
- c. **Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.**
- d. **Declaration certifying that the imported waste tyres were used for the intended purpose.**

2.4. M/s S.E. Power Ltd, Vadodara, Gujarat (F. No. 5-36/2014-HSMD)

The application pertains to import of 6,000 MT of Old and Used rubber tyre scrap/pairing/rubber tubes scrap (B3080) for manufacturing of reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consolidated consent to operate and authorisation no. AWH-100845 dated 18/04/2019 is valid up to 31/12/2023. The consented capacity as per CTO is 2,000 MT/month for Reclaim rubbers. The unit has work strength of 210 no. of employees. The date of establishment is 11/08/2010 and actual date of operation is 29/03/2014. The unit has connected load of 1000 KVA and electricity consumption of Rs. 44,96,190/- during 2019-20. The GST Paid in last year is Rs. 1,81,05,288/-. The production of the unit in last 5 years is:

2015-16	3,387 MT
2016-17	5,714 MT
2017-18	6,750 MT
2018-19	9,182 MT
2019-20	10,388 MT

The unit has exported 3.517 MT in FY 2019-20. The previous permission dated 22/11/2018 and extension of period of permission dated 09/05/2019 was issued for the import of 1,200 MT of used rubber tyres scrap/tube scrap against which 1,001 MT was imported. Last site visit was done by CPCB on 14/06/2018.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the committee recommended import of 3,325 MT of Old and Used rubber tyre scrap/pairing/rubber tubes scrap (B3080) for manufacturing of reclaim rubber /crumb rubber. The applicant should submit the following documents with its application for next financial year:

- e. **Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.**
- f. **The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.**

- g. **Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.**
- h. **Declaration certifying that the imported waste tyres were used for the intended purpose.**

2.5. M/s R. S. Rubber Solutions, Ludhiana, Punjab (F. No.23/2/2018-HSMD)

The application pertains to import of 12,000 MT of Old/used rubber tubes and tyres scrap (B 3080) for manufacturing of rubber granules, rubber crumb and rubber chips. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate no. CTOA/Varied/LDH2/2018/8880723 dated 17/12/2018 is valid up to 30/06/2023 and authorisation no. HWM/fresh/LDH2/2017/5198169 dated 01/03/2017 is valid up to 30/06/2021. The annual consented capacity as per CTO is 30,000 MT for Rubber granules, rubber chips and crumb rubber. The unit has work strength of 12 no. of employees. The year of establishment of the unit is 2015 and the actual date of operation is January, 2016. The unit has connected load of 300 KVA and electricity consumption of Rs. 15,83,539/-during 2019-20. The GST paid in FY 2019-20 was Rs. 41,07,426.50/-. The production of the unit in last 5 years is:

2016-17	1,782 MT
2017-18	2,400 MT
2018-19	5,430 MT
2019-20	6,729 MT

The unit has not exported in FY 2019-20. The previous permission dated 11/03/2018 was issued for the import of 800 MT of used rubber tyres scrap/tube scrap against which 781 MT was imported. Last site visit was done on 13/08/2017 by CPCB.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of total 2,150 MT of Old/used rubber tubes and tyres scrap (B 3080) for manufacturing of rubber granules, rubber crumb and rubber chips. The 50% of the quantity recommended above may be granted after submission of site visit report by CPCB stating compliance of SOP without referring the application to the EC. The applicant should submit the following documents with its application for next financial year:

- a. **Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.**
- b. **The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.**
- c. **Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.**
- d. **Declaration certifying that the imported waste tyres were used for the intended purpose.**

1.6.1. M/s Gulati Udyog, Dist. Durg, Chattisgarh (F. No.23-19/2015-HSMD)

The application pertains to import of 2,07,000 MT (for three years) of Used rubber tyre scrap (B3140) for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate no. 2338/RO/TS/CECB/2016 dated 06/01/2017 is valid up to 06/01/2022 and authorisation no. 2432/HSMD/HO/CECB/2020 dated 29/06/2020 is valid up to 04/07/2024. The annual consented capacity as per CTO is 69,000 MTA for rubber crumb and granules from waste tyre scrap. The unit has work strength of 36 no. of employees. The date of establishment of the unit is 14/03/2014 and the actual date of operation is 31/01/2015. The unit has connected load of 250 KVA and alternative power source of 250 KVA Diesel Generator. The electricity consumption of Rs. 30,47,860/- during 2019-20. The production of the unit in last 5 years is:

2015-16	14,834.172 MT
2016-17	22,496.640 MT
2017-18	26,910.312 MT
2018-19	25,917.530 MT
2019-20	7,262.540 MT

The unit has not exported any product yet. The previous permission was issued for the import of 30,000 MT of rubber tyres scrap vide OM dated 10/08/2018 against which 30,000 MT was imported. The unit has been visited by CPCB on 02/06/2017.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of total 8,600 MT of used rubber tyres scrap/tube scrap for manufacturing of crumb rubber. The 50% of the quantity recommended above may be granted after submission of site visit report by CPCB stating compliance of SOP without referring the application to the EC. The applicant should submit the following documents with its application for next financial year:

- a. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.
- b. The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.
- c. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.
- d. Declaration certifying that the imported waste tyres were used for the intended purpose.

2.7. M/s Pragati Rubber, Junagarh, Gujarat (F. No.23/33/2019-HSMD)

The application pertains to import of 42,000 MT of Old/used rubber tyres scrap (B3140) for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consolidated consent to operate and authorisation No. AW43678 dated 04/11/2020 is valid till 30/09/2035. The consented capacity as per CTO is 3,500 MT per month for Crumb rubber. The unit has work strength of 40 nos. of employees. The date of

establishment of the unit is 06/07/2015 and the actual date of operation is 02/12/2015. The unit has connected load of 300 KVA and electricity consumption of Rs. 95 lakhs during 2019-20. The production of the unit in last 3 years is:

2017-18	16,580 MT
2018-19	15,750 MT
2019-20	23,831 MT

The unit has not exported any product yet. The GST paid in FY 2019-20 was Rs. 130.79 lakhs by the applicant. The unit has been visited by CPCB on 28/12/2018. The previous permission was issued for the import of 10,000 MT of Old/used rubber tyres scrap vide OM dated 24/04/2019.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 7,600 MT of Old/used rubber tyres scrap (B3140) for manufacturing of crumb rubber for manufacturing of reclaim rubber /crumb rubber. The applicant should submit the following documents with its application for next financial year:

- a. **Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.**
- b. **The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.**
- c. **Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.**
- d. **Declaration certifying that the imported waste tyres were used for the intended purpose.**

2.8. M/s Western India Oil Company, Raigad, Maharashtra (F. No.23-126/2014-HSMD)

The application pertains to import of 1,70,000 MT of Old/used rubber tyre scrap (B3140) for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. SRO-Mahad/CONSENT-20010020272 dated 30/01/2020 is valid up to 31/12/2023. The consented capacity as per CTO is 12,000 MT/Month for crumb rubber and 2,100 MT/Month for Steel. The unit has work strength of 48 nos. of employees. The actual date of operation is 03/03/2014. The unit has connected load of 315 KVA and Generator of 256 KVA. The Power/fuel expenses is Rs.46,51,349/- during 2019-20. The production of the unit in last 5 years is:

2015-16	5,100 MT
2016-17	4,800 MT
2017-18	12,300 MT
2018-19	28,500 MT
2019-20	49,900 MT

The applicant has paid GST of Rs. 3,73,26,728/- in FY 2019-20. The unit has not exported any product yet. The unit has been visited by CPCB in January, 2018.

The previous permission was issued for the import of 22,450 MT of waste pneumatic tyres vide OM dated 25/04/2019 against which 19,000 MT was imported.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 15,960 MT of old/used rubber tyre scrap (B3140) for manufacturing of crumb rubber. The applicant should submit the following documents with its application for next financial year:

- a. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.
- b. The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.
- c. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.
- d. Declaration certifying that the imported waste tyres were used for the intended purpose.

2.9. M/s Radhe Exim Pvt. Ltd, Bhilwara, Rajasthan (F. No.23-286/2014-HSMD)

The application pertains to import of 20,000 MT of Waste rubber tyres scrap/tubes scrap (B 3080) for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate no. RPCB/RO BHI/GIB-150/2965 dated 10/10/2014 validity not mentioned and authorization No. F(HSW)/Bhilwara (Hurda)/1(1)/2016- 2017/8060-8062 dated 21/12/2017 which is valid up to 30/11/2022. The annual consented capacity as per CTO is 30,000 MTA for crumb rubber. The unit has work strength of 36 no. of employees. The date of establishment of the unit is 20/09/2014 and the actual date of operation is 15/10/2014. The unit has connected load of 497 KVA and electricity consumption of Rs.1,08,84,205/- during 2019-20. The production of the unit in last 5 years is:

2015-16	9126.375 MT
2016-17	7300.903 MT
2017-18	7769.086 MT
2018-19	11629.148 MT
2019-20	17931.931 MT

The applicant has paid GST of Rs. 90,36,360/- in FY 2019-20. The unit has been visited by CPCB on 15/01/2018. The previous permission was issued for the import of 6,000 MT of used rubber tyres scrap for manufacturing of crumb rubber vide OM dated 17/05/2019.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 5,730 MT of Waste rubber tyres scrap/tubes scrap (B3080) for manufacturing of crumb rubber. The applicant should submit the following documents with its application for next financial year:

- e. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of

capacity of unit, the quantity processed, power load and consumption in previous financial year.

- f. The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.
- g. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.
- h. Declaration certifying that the imported waste tyres were used for the intended purpose.

2.10. M/s Valmerk Rubber Industries, Sri Ganganagar, Rajasthan (F. No.23-179/2015-HSMD)

The application pertains to import of 1,12,000 MT of Used rubber tyres scrap (B 3140) for manufacturing of rubber chips and crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consolidated consent to operate no. 2020-2021/Bikaner/8664 dated 26/05/2020 validity not mentioned and authorization No. RPCB/HWM/2020-2021/Bikaner/HSW/1dated 26/08/2020 which is valid up to 31/05/2025. The annual consented capacity as per CTO is 1,10,000 MTA for Rubber chips and rubber crumb. The unit has work strength of 15-20 no. of employees. The date of establishment of the unit is 30/05/2015 and the actual date of operation is 13/04/2016. The unit has connected load of 180 KV and electricity consumption of Rs.5.00 lakhs during 2019-20. The production of the unit in last 5 years is:

2015-16	NIL
2016-17	15,346.200 MT
2017-18	16,618.570 MT
2018-19	20,472.825 MT
2019-20	3,851.000 MT

The applicant has paid GST of Rs. 10,20,464/- in FY 2019-20. The unit has been visited by CPCB on 23/01/2016. The previous permission was issued for the import of 20,000 MT of used rubber tyres scrap vide OM dated 13/06/2018 against which 18,000 MT was imported.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of total 6,550 MT of used rubber tyres scrap/tube scrap for manufacturing of crumb rubber. The 50% of the quantity recommended above may be granted after submission of site visit report by CPCB stating compliance of SOP without referring the application to the EC. The applicant should submit the following documents with its application for next financial year:

- a. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.
- b. The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.
- c. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.

- d. **Declaration certifying that the imported waste tyres were used for the intended purpose.**

2.11. M/s Asha Import & Export, Hapur, Uttar Pradesh (F. No.23-99/2015-HSMD)

The application pertains to import of 15,000 MT of Used rubber tyres scrap (B 3140) for manufacturing of rubber crumb. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consolidated consent to operate no. 116589/UPPCB/Ghaziabad (LAB)/CTO/air/HAPUR/2020 and No.116586/UPPCB/Ghaziabad (LAB)/CTO/water/HAPUR/2020 dated 2/01/2021 valid up to 31/03/2023 and authorization No. 3497 dated 10/08/2018 which is valid up to 09/08/2023. The annual consented capacity as per CTO is 25 MT per day for crumb rubber. The unit has work strength of 31 no. of employees. The date of establishment of the unit is 03/04/2013 and the actual date of operation is 02/11/2013. The unit has connected load of 80 KVA and generator of 135 KVA. The electricity and fuel consumption is Rs, 27,74,339/- for FY 2019-20. The production of the unit in last 5 years is:

2015-16	10,667 MT
2016-17	10,966 MT
2017-18	9,767 MT
2018-19	10,388 MT
2019-20	9,822 MT

The unit has not exported any product yet. The previous permission was issued for the import of 3,300 MT of used rubber tyres scrap/tubes scrap vide OM dated 14/05/2018. Site visit was done by CPCB on 23/03/2018.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 3,500 MT of Used rubber tyres scrap (B 3140) for manufacturing of rubber crumb. The applicant should submit the following documents with its application for next financial year:

- a. **Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.**
- b. **The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.**
- c. **Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.**
- d. **Declaration certifying that the imported waste tyres were used for the intended purpose.**

2.12. M/s R.S. Shreadon, Greater Noida, Uttar Pradesh (F. No. 23-181/2015-HSMD)

The application pertains to import of 1,44,000 MT (for three years) of Waste rubber tyres scrap for manufacturing of crumb rubber/rubber granules. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consolidated consent to operate no. 81337/UPPCB/Greater Noida (UPPCBRO)/CTO/air/GREATER dated 07/01/2020 valid up to 31/03/2025 and authorization No.5058 dated 07/12/2018 which is valid up to 06/12/2023. The annual

consented capacity as per CTO is 48,000 MT per annum for Old used tyres. The unit has work strength of 27 no. of employees. The actual date of operation is 19/10/2015. The unit has connected load of 250 KVA and electricity consumption of Rs.26,17,089/- for FY 2019-20. The production of the unit in last 5 years is:

2015-16	1,789.30MT
2016-17	5,297.44 MT
2017-18	17,120.46 MT
2018-19	16,776.52 MT
2019-20	6,344.46 MT

The unit has not exported any product yet. The previous permission was issued for the import of 20,000 MT of used rubber tyres scrap/tubes scrap vide OM dated 03/05/2018 against which 20,000 MT was imported. Site visit was done on 21/10/2016 by CPCB.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of total 5,500 MT of used rubber tyres scrap/tube scrap for manufacturing of crumb rubber. The 50% of the quantity recommended above may be granted after submission of site visit report by CPCB stating compliance of SOP without referring the application to the EC. The applicant should submit the following documents with its application for next financial year:

- a. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.
- b. The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.
- c. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.
- d. Declaration certifying that the imported waste tyres were used for the intended purpose.

2.13. M/s Shri Balaji Agro Products, Saharanpur, Uttar Pradesh (F. No. 23-59/2018-HSMD)

The application pertains to import of 10,000 MT of Used rubber tyres scrap/tube scrap (B3140) for manufacturing of rubber crumbs. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate no. 46342/UPPCB/Saharanpur (UPPCBRO)/CTO/air/water/SAHARANPUR/201 dated 02/02/2019 valid up to 31/07/2021 and authorization No.8547/UPPCB/Saharanpur (UPPCBRO)/ HWM/SAHARANPUR/2019 dated 19/08/2019 which is valid up to 18/08/2024. The annual consented capacity as per CTO is 10,000 MT per year. The unit has work strength of 8 no. of employees. The date of establishment of the unit is 20/06/2014 and the actual date of operation is 12/12/2014. The unit has connected load of 45 KW and generator of 100 KVA. The electricity consumption of Rs. 1,85,554/-for FY 2019-2020. The production of the unit in last 5 years is:

2015-16	Nil
2016-17	Nil
2017-18	230 MT
2018-19	782 MT
2019-20	3,917 MT

The unit has not exported any product yet. The previous permission was issued for the import of 1,500 MT of used rubber tyres scrap vide OM dated 13/09/2018 against which 1,500 MT was imported. Site visit was done on 19/05/2018 by CPCB.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 1,250 MT of used rubber tyres scrap/tube scrap (B3140) for manufacturing of rubber crumbs. The applicant should submit the following documents with its application for next financial year:

- a. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.
- b. The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.
- c. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.
- d. Declaration certifying that the imported waste tyres were used for the intended purpose.

2.14. M/s Green Rubber Crumb Pvt. Ltd, Raigad, Maharashtra (F. No.23-186/2014-HSMD)

The application pertains to import of 6,60,000 MT of old and used rubber tyres scrap for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consolidated consent to operate and authorization No. MPCB/SROR-1/TB/Consent amendment/1902000003 dated 1/02/2019 which is valid up to 31/01/2023. The annual consented capacity as per CTO is 1,60,000 MT per year for Rubber crumbs & its derived products and 60,000 MTA for Steel scrap & Rubber Fibers. The unit has work strength of 67 no. of employees. The actual date of operation is 21/11/2013. The unit has connected load of 495 KW, Solar Power of 1200 KW and 2 DG Set of 400 KW each. The electricity consumption of Rs.1,55,03,701/- for FY 2019-20. The production of the unit for crumb rubber in last 5 years is:

2015-16	9869.13 MT
2016-17	17,787.87 MT
2017-18	19,456.70 MT
2018-19	13615.76 MT
2019-20	56,079.08 MT

The GST paid in the FY 2019-20 is Rs. 3,21,51,391/-. The unit has not exported any product yet. The previous permission was issued for the import of 44,000 MT of used rubber tyres scrap vide OM dated 23/04/2019 against which 44,000 MT was imported. Site visit was done by CPCB on 19/05/2016.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of total 17,950 MT of used rubber tyres scrap/tube scrap for manufacturing of crumb rubber. The 50% of the quantity recommended above may be granted after submission of site visit report by CPCB stating compliance of SOP without referring the application to the EC. The applicant should submit the following documents with its application for next financial year:

- a. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.
- b. The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.
- c. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.
- d. Declaration certifying that the imported waste tyres were used for the intended purpose.

2.15. M/s EPS International, Surat, Gujarat (F. No. 23-5/2015-HSMD)

The application pertains to import of 15,000 MT of Waste rubber tyres scrap/tube scrap (B3080) for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorization No.AW-104981 dated 13/11/2019 which is valid up to 10/10/2024. The consented capacity as per CTO is 1,500 MT/Month for Rubber Powder, 500 MT/month for Rubber Tiles and 500 MT/month for rubber Block/Matt. The unit has work strength of 14 no. of employees. The date of establishment of the unit is 19/07/2014 and the actual date of operation is 14/11/2014. The unit has connected load of 250 HP and generator of 125 KVA. The electricity consumption of Rs.7,20,842/-for 2019-20 and the generator expenses of Rs.21,05,510/-. The production of the unit in last 5 years is:

2015-16	3304 MT
2016-17	2952 MT
2017-18	4316.7 MT
2018-19	7356.8 MT
2019-20	11348.43 MT

The unit has not exported any product yet. The GST paid in FY 2019-20 is Rs.29,57,986/-. The unit has been visited by CPCB on 09/10/2017. The previous permission was issued for the import of 3,000 MT of used rubber tyres scrap vide OM dated 22/11/2018 against which 3,000 MT was imported.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended total 3,600 MT of used rubber tyres scrap (B3080) for manufacturing of crumb rubber. The 50% of the quantity recommended above may be granted after submission of site visit report by CPCB stating compliance of

SOP without referring the application to the EC. The applicant should submit the following documents with its application for next financial year:

- a. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.**
- b. The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.**
- c. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.**
- d. Declaration certifying that the imported waste tyres were used for the intended purpose.**

2.16. M/s Nikhil Petro Chem Pvt. Ltd, Sabarkantha District, Gujarat (F. No. 23-69/2016-HSMD)

The application pertains to import of 15,000 MT of Old/used rubber tyres scrap/tube scrap (B 3080) for manufacturing of crumb powder. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate AWH-42390 dated 24/07/2020 is valid up to 31.03.2023 and authorisation no. AWH-68688 dated 02/03/2015 is valid up to 19/01/2020. The annual consented capacity as per CTO is 3000 MT per Month for Crumb Powder. The unit has work strength of 36 no. of employees. The actual date of operation is 05/12/2014. The unit has connected load of 600 KVA. The electricity consumption is 4,85,304 units. The production of the unit in last 3 years is:

2017-18	1691.183 MT
2018-19	1986.84 MT
2019-20	11772.50 MT

The unit has not exported any product yet. The GST paid in FY 2019-20 is Rs.48,09,649/-. The previous permission was given for the import of 2,100 MT of used rubber tyres scrap vide O.M. dated 23/04/2019. The site visit has been conducted on 24/08/2016.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended total 3,770 MT of used rubber tyres scrap for manufacturing of crumb rubber. The 50% of the quantity recommended above may be granted after submission of site visit report by CPCB stating compliance of SOP without referring the application to the EC. The applicant should submit the following documents with its application for next financial year:

- a. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.**
- b. The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.**
- c. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.**

- d. **Declaration certifying that the imported waste tyres were used for the intended purpose.**

2.17. M/s Valencia Rubber Tech LLP, Morbi, Gujarat (F. No.23/24/2018-HSMD)

The application pertains to import of 30,000 MT of Old/used rubber tyres scrap/tube scrap (B3080) for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. W-23147 dated 26/04/2017 is valid up to 18/04/2027. The consented capacity as per CTO is 5000 MT per month for Crumb Powder. The unit has work strength of 45 no. of employees. The actual date of operation is 10/05/2017. The unit has connected load of 525 KVA. Total electricity consumption for 2019-20 is 11,62,167 units. The GST paid in FY 2019-20 is Rs. 92,79,292/-. The production of the unit in last 3 years is:

2017-18	9.90 MT
2018-19	3670.89 MT
2019-20	33897.45 MT

The unit has not exported any product yet. The previous permission was given for the import of 15,000 MT of used rubber tyres scrap/tube scrap vide O.M. dated 17/05/2019. The site visit has been conducted by CPCB on 11/09/2017.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended total 10,800 MT of Old/used rubber tyres scrap/tube scrap (B 3080) for manufacturing of crumb rubber. The 50% of the quantity recommended above may be granted after submission of site visit report by CPCB stating compliance of SOP without referring the application to the committee. The applicant should submit the following documents with its application for next financial year:

- a. **Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.**
- b. **The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.**
- c. **Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.**
- d. **Declaration certifying that the imported waste tyres were used for the intended purpose.**

2.18. M/s Shree Mangal Radhika Industries, Sonipat, Haryana (F. NO. 23-55/2015-HSMD)

The application pertains to import of 8,760 MT of Old/used rubber tyres scrap/tube scrap (B3080) for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate no. HSPCB/Consent/: 329805017SONCTO4506475 dated 25/11/2016 valid up to 31/03/2028 and authorisation no. HWM/SON/2018/4507611 dated 14/02/2018 is valid up to 31/03/2023. The consented capacity as per CTO is 28 MT/ day for Waste Tyres. The unit has work strength of 12 no. of employees. The date of establishment of the unit is 05/08/2014 and the actual date of operation is 29/09/2014. The unit has

connected load of 175 KVA and generator of 125 KVA. Total electricity consumption for 2019-20 is Rs.10,79,409/-. The GST paid in FY 2019-20 is Rs.63,76,939/-. The production of the unit in last 5 years is:

2015-16	1936.27 MT
2016-17	1939.5 MT
2017-18	4904.08 MT
2018-19	4293.45 MT
2019-20	3650.84 MT

The unit has not exported any product yet. The previous permission was given for the import of 3,200 MT of used rubber tyres scrap/tube scrap vide O.M. dated 13/09/2018. The site visit has been conducted by CPCB on 23/04/2016.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the committee recommended total 1,570 MT of used rubber tyres scrap for manufacturing of crumb rubber. The 50% of the quantity recommended above may be granted after submission of site visit report by CPCB stating compliance of SOP without referring the application to the committee. The applicant should submit the following documents with its application for next financial year:

- a. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.
- b. The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.
- c. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.
- d. Declaration certifying that the imported waste tyres were used for the intended purpose.

2.19. M/s Oyster Industries Limited, Silvassa (F. No. 23-88/2015-HSMD)

The application pertains to import of 15,000 MT of Old and Used rubber tyre scrap (B 3040) for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consolidated consent to operate and authorisation no. PCC/DDD/G-5296/485206 dated 01/11/2020 is valid till 30/11/2021. The consented capacity as per CTO is 29083 T/annum for Crumb Rubber Chips, 8760 T/annum for Crumb Rubber Powder and 4380 T/ annum for Crumb Rubber Granulates. The unit has work strength of 23 no. of employees. The date of establishment of the unit is 10/09/2012 and the actual date of operation is 09/10/2013. The unit has connected load of 500 KVA. Total electricity consumption for 2019-20 is Rs.88,52,235/-. The production of the unit in last 5 years is:

2015-16	33,811 MT
2016-17	31,967 MT
2017-18	36,204 MT
2018-19	52,851 MT
2019-20	68,139 MT

The unit has not exported any product. Total GST paid in FY 2019-20 is Rs. 83,29,094/-. The previous permission was given for the import of 3,000 MT of used rubber tyres scrap vide O.M. dated 24/01/2020 and 3,000 MT of used rubber tyres scrap vide O.M. dated 04/05/2020. The site visit was conducted on 04/02/2016 by CPCB.

Recommendation: The committee noted that the applicant has been given permission for import of 3,000 MT of used rubber tyres scrap vide O.M. dated 04/05/2020. Also, the last site visit was done in 2016 by CPCB. So, the EC recommended site visit by CPCB when the plant is in operation. The report of CPCB should inter-alia include:

- a. Total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.
- b. Balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.
- c. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.
- d. Declaration certifying that the imported waste tyres were used for the intended purpose.

2.20. M/s Tinna Rubber and Infrastructure Ltd, New Delhi (for Panipat plant) (F. No. 23/31/2018-HSMD)

The application pertains to import of 14,602 MT of Used rubber tyres scrap (B3140) for manufacturing of crumb Rubber Powder and reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate no. HSPCB/Consent/:313091917PITCTO4263073 dated 27/11/2017 valid up to 30/09/2022 and authorisation no. HWM/PIT/2019/6359262 dated 03/04/2019 is valid up to 30/09/2022. The consented capacity as per CTO is 165 MT per day and 200 Mt per day for Bitumen. The unit has work strength of 187 no. of employees. The actual date of operation is 24/08/2001. The unit has connected load of 1600 KVA. Total electricity consumption for 2019-20 is 41.99 lakhs Units. The production of the unit in last 5 years is:

2015-16	21,303 MT
2016-17	15,262 MT
2017-18	19,509 MT
2018-19	25,527 MT
2019-20	18,235 MT

The unit has not exported any product. Total GST paid in FY 2019-20 is Rs. 943.52 lakhs. The previous permission was given for the import of 5,000 MT of used rubber tyres scrap vide O.M. dated 19/11/2019 and 5,000 MT of used rubber tyres scrap vide O.M. dated 04/05/2020 out of which 10,000 MT has been imported. Site visit letter was sent to CPCB. The site visit was conducted on 31/12/2020. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 8,170 MT of used rubber tyres scrap (B3140) for manufacturing of crumb Rubber Powder and reclaim rubber. The applicant should submit the following documents with its application for next financial year:

- a. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.
- b. The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.
- c. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.
- d. Declaration certifying that the imported waste tyres were used for the intended purpose.

2.21. M/s Tinna Rubber and Infrastructure Ltd, New Delhi (for Gummidipundi, Tamilnadu plant) (F. No. 23/37/2018-HSMD)

The application pertains to import of 17,593 MT of Old/used rubber tyres scrap (B3140) for manufacturing of crumb rubber powder and reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate no. 909221965188 dated 10/04/2019 is valid up to 31/03/2025 and authorisation no. 17HFZ6733684 dated 20/01/2017 is valid up to 19/01/2022. The consented capacity as per CTO is 2,000 MT per month for Crumb Rubber Modifier, 1,000 MT per month ultra-fine crumb rubber compound, 3,750 MT per month for crumb rubber powder and 180 MT per month for Fine crumb rubber. The unit has work strength of 180 no. of employees. The actual date of operation is 25/03/2002. The unit has connected load of 1440 KVA. The electricity consumption FY 2019-20 is 49.96 lakhs Units. The production of the unit in last 3 years is:

2017-18	8,070 MT
2018-19	9,785 MT
2019-20	14,687 MT

The unit has exported 2733 MT of rubber product in FY 2019-20. The GST paid in FY 2019-20 is Rs. 424.79 lakhs. The previous permission was given for the import of 5,000 MT of used rubber tyres scrap vide O.M. dated 19/11/2019 and 5,000 MT of used rubber tyres scrap vide O.M. dated 04/05/2020. Site visit letter was sent to CPCB. The site visit was conducted on 18/12/2020 by CPCB. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 7,430 MT of used rubber tyres scrap (B3140) for manufacturing of crumb Rubber

Powder and reclaim rubber. The applicant should submit the following documents with its application for next financial year:

- a. **Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.**
- b. **The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.**
- c. **Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.**
- d. **Declaration certifying that the imported waste tyres were used for the intended purpose.**

2.22. M/s Tinna Rubber and Infrastructure Ltd, New Delhi (For Haldia plant) (F. No. 23/10/2019-HSMD)

The application pertains to import of 17,593 MT of used rubber tyres scrap (B3140) for manufacturing of crumb rubber powder and reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate no. 6108-W-HC-0/17/0393 dated 15/09/2017 is valid up to 31/05/2022 and authorisation no. 15/2S(HW)-3458/2017 dated 29/01/2018 is valid up to 31/12/2022. The consented capacity as per CTO is 3,200 MT per month for Crumb Rubber Modifier and 2,400 MT per month for crumb rubber. The unit has work strength of 36 no. of employees. The actual date of operation is 14/05/2010. The unit has connected load of 349 KVA. The electricity consumption FY 2019-20 is 5.78 lakhs Units. The production of the unit in last 5 years is:

2015-16	5,833 MT
2016-17	1,114 MT
2017-18	1,945 MT
2018-19	2,303 MT
2019-20	6,705 MT

The unit has not exported any rubber product. The GST paid in FY 2019-20 is Rs. 192.06 lakhs. The previous permission was given for the import of 5,000 MT of used rubber tyres scrap vide O.M. dated 08/03/2019 out of which 4,987.64 MT has been imported. Site visit letter was sent to CPCB. The site visit was conducted on 29/12/2020 by CPCB. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is not fully complying with SOP and suggested some improvement.

Recommendation: Based on the site inspection report submitted by CPCB, some improvement has been suggested by CPCB. The EC recommended that no import should be permitted unless the improvement has been made by the applicant and verified by CPCB. On receipt of verification report from CPCB stating compliance of SOP, the total quantity of 2,145 MT of used rubber tyres scrap (B3140) for manufacturing of crumb Rubber Powder and reclaim rubber may be granted without referring the application to the EC.

2.23. M/s Sasa Rubbers Pvt. Ltd, Morbi, Gujarat (F. No. 5-17/2012-HSMD)

The application pertains to import of 24,000 MT of used rubber tyres scrap (B3140) for manufacturing of crumb rubber powder and reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. AWH-82861 dated 06/12/2016 is valid up to 10/10/2021. The consented capacity as per CTO is 1,000 MT per month for Crumb Rubber and 1,000 MT per month for reclaim rubber. The unit has work strength of 22 no. of employees. The date of establishment is 01/10/2010 and the actual date of operation is 25/11/2011. The unit has connected load of 470 KVA. The electricity expenses for FY 2019-20 is Rs. 34,04,295/-. The production of the unit in last 5 years is:

2015-16	3129.19 MT
2016-17	3260.4 MT
2017-18	3863.13 MT
2018-19	3810.4 MT
2019-20	12870 MT

The unit has not exported any rubber product. The GST paid in FY 2019-20 is Rs. 1 crore. The previous permission was given for the import of 10,000 MT of used rubber tyres scrap vide O.M. dated 03/05/2018. Site visit letter was sent to CPCB. The site visit was conducted on 23/12/2020 by CPCB. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is not fully complying with SOP and suggested some improvement.

Recommendation: Based on the site inspection report submitted by CPCB, some improvement has been suggested by CPCB. The EC recommended that no import should be permitted unless the improvement has been made by the applicant and verified by CPCB. On receipt of verification report from CPCB stating compliance of SOP, the total quantity of 4,110 MT of used rubber tyres scrap (B3140) for manufacturing of crumb Rubber Powder and reclaim rubber may be granted without referring the application to the EC.

2.24. M/s R.G. Industrial Corporation, Bahadurgarh, Haryana (new)

The application pertains to import of 9,000 MT of used rubber tyres scrap (B 3140) for manufacturing of crumb rubber powder and reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate no. HSPCB/Consent/:2844417HACTO3562380 dated 30/01/2017 is valid up to 31/03/2022 and authorisation no. HWM/JHA/2019/6605317 dated 29/06/2019 is valid up to 31/03/2022. The consented capacity as per CTO is 6720 T/Annum for B 3140. The unit has work strength of 19-20 no. of employees. The date of establishment is 25/07/2015 and the actual date of operation is 07/11/2015. The unit has connected load of 450 KVA. The electricity consumption for FY 2019-20 is 1222495 KVAH units. The production of the unit in last 5 years is:

2015-16	1900 MT
2016-17	4100 MT
2017-18	5050 MT
2018-19	6000 MT
2019-20	6250 MT

The unit has not exported any rubber product. The GST paid in FY 2019-20 is Rs.56,69,619/-. Site visit letter was sent to CPCB. The site visit was conducted on 08/01/2021 by CPCB. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is not fully complying with SOP and suggested some improvement.

Recommendation: Based on the site inspection report submitted by CPCB, some improvement has been suggested by CPCB. The EC recommended that no import should be permitted unless the improvement has been made by the applicant and verified by CPCB. On receipt of verification report from CPCB stating compliance of SOP, the total quantity of 2,000 MT of used rubber tyres scrap (B3140) for manufacturing of crumb Rubber Powder and reclaim rubber may be granted without referring the application to the EC.

Date: 14th January, 2021

AGENDA ITEM NO.3. IMPORT OF USED RUBBER TYRES SCRAP

3.1. M/s Royal Carbon Black Pvt. Ltd, Raigad, Maharashtra

The application pertains to import of 1,00,000 MT of Old/used rubber tyres scrap (B3080) for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. RO-Raigad-Consent/1808000071 dated 01/08/2018 is valid up to 31/07/2021. The consented capacity as per CTO is 1,00,000 MTA for Crumb rubber (Cutting & Grinding activity only and 50,000 MTA per month for Black pigment powder (Grinding & mixing activity only). The unit has work strength of 43 no. of employees. The actual date of operation is 26/10/2009. The unit has connected load of 660 KW. The electricity expenses for FY 2019-20 is Rs.1,30,59,984/-. The production of the unit in last 3 years is:

2015-16	37,173 MT
2016-17	28,372 MT
2017-18	10,098 MT
2018-19	5,710 MT
2019-20	51,303 MT

The unit has not exported any rubber product. However, the export details of Steel are as follows:

2016-17	391.88 MT
2017-18	560.00 MT
2018-19	222.44 MT
2019-20	3,586.15 MT

The GST paid in FY 2019-20 is Rs. 1,30,04,607/-. The matter was discussed in the 95th meeting of Expert Committee held in March, 2019 and the Committee recommended for site visit by CPCB. Site visit was done on 08/07/2019. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 16,415 MT of Old/used rubber tyres scrap (B 3080) for manufacturing of crumb rubber. The applicant should submit the following documents with its application for next financial year:

- a. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.
- b. The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.
- c. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.
- d. Declaration certifying that the imported waste tyres were used for the intended purpose.

3.2. M/s Vellis Rubber Industries, Chittoor, A.P. (F. No.23-82/2016-HSMD)

The application pertains to import of 15,000 MT of old/used rubber tyres scrap & tube scrap for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consolidated consent to operate and authorisation no. No. No. CTR-1038/APPCB/ZO-KNL/CFO/2016 dated 04/06/2016 is valid up to 30/04/2021. The annual consented capacity as per CTO is 30,000 MT per annum for crumb rubber. The unit has work strength of 20 no. of employees. The date of establishment of the unit is 22/01/2016 and the actual date of operation is 04/06/2016. The unit has connected load of 150 HP and electricity consumption of Rs.18,31,974/- during 2019-20. The production of the unit in last 5 years is:

2015-16	Nil
2016-17	12,340 MT
2017-18	13,193 MT
2018-19	27,474 MT
2019-20	21,817 MT

The unit has not exported any product yet. The previous permission was issued for the import of 24,000 MT of used rubber tyres scrap for FY 2017-18 and FY 2018-2019 vide OM dated 22/11/2018 against which 19,178 MT was imported. The unit has been visited by CPCB on 30/10/2020. The matter was last discussed in 99th Meeting of EC held in June, 2020 and the EC recommended site visit by CPCB. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is complying with SOP.

Recommendation: The representative of the company during the meeting of EC could not explain the reason of low electricity expenses in respect of production and some other query. Therefore, the EC recommended to submit documents related to list of equipment installed and their connected load, alternative source of power and their bills. Till then, the EC decided to defer the application.

3.3. M/s Sunflex Recycling Pvt. Ltd, Gandhinagar, Gujarat (F. No. 23-235/2014-HSMD)

The application pertains to import of 30,000 MT of used rubber tyres scrap (B 3080) for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. AWH-37567 dated 30/07/2019 is valid up to 21/09/2029. The annual consented capacity as per CTO is 5000 MT per month for Crumb rubber. The unit has work strength of 49 no. of employees. The date of establishment of the unit is 02/05/2013 and the actual date of operation is 30/04/2015. The unit has connected load of 550 KVA. Total electricity consumption for 2019-20 is 457048 units. The production of the unit in last 5 years is:

2015-16	73,460 MT
2016-17	59,477 MT
2017-18	58,390 MT
2018-19	62,376 MT
2019-20	54,461 MT

The unit has exported 868.850 MT of rubber product during 2019-20. Total GST paid in FY 2019-20 is Rs. 1,08,59,730/- after set off input. The previous permission was given for the import of 24,000 MT of used rubber tyres scrap/tube scrap vide O.M. dated 05/01/2018 against which 20,944 MT has been imported. The matter was last discussed in 99th Meeting of EC held in June, 2020 and the committee recommended site visit by CPCB. The unit has been visited by CPCB on 23/10/2020. Now, CPCB submitted the site inspection report to the Ministry stating that unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 24,375 MT of used rubber tyres scrap (B3080) for manufacturing of crumb rubber. The applicant should submit the following documents with its application for next financial year:

- a. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.
- b. The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.
- c. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.
- d. Declaration certifying that the imported waste tyres were used for the intended purpose.

3.4. M/s Minar Reclamation Pvt. Ltd, Ludhiana, Punjab (F. No.23-240/2013-HSMD)

The application pertains to import of 4,000 MT of Used rubber tyres scrap/ Butyl tubes scrap (B 3080) for manufacturing of reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate CTOA/Varied/LDH2/2018/7661017 dated 08/06/2018 is valid up to 30/06/2023 and authorisation no. HWM/Fresh/LDH2/2018/7772549 dated 20/07/2018 is valid up to 19/07/2023. The annual

consented capacity as per CTO is 48 MT per day for Reclaim Rubber. The unit has work strength of 14 no. of employees. The date of establishment of the unit is 01/06/2011 and the actual date of operation is 15/10/2012. The unit has connected load of 600 KVA. Total electricity bill for 2019-20 is Rs. 1,27,00,574/-. The production of the unit in last 5 years is:

2015-16	1,728 MT
2016-17	2,037 MT
2017-18	2,215 MT
2018-19	2,780 MT
2019-20	3,920 MT

The unit has not exported any product. Total GST paid in FY 2019-20 is Rs. 69,69,326/-. The previous permission was given for the import of 3,500 MT of used rubber tyres scrap vide O.M. dated 08/03/2019 against which 3,348 MT has been imported. The site visit has been conducted on 17/10/2018 by CPCB.

The matter was last discussed in 99th Meeting of EC held in June, 2020 and the committee recommended to submit the site visit report of SPCB. Now, the applicant has submitted the site visit report of SPCB.

Recommendation: Based on the site inspection report submitted by SPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 1,250 MT of rubber tyres scrap/ Butyl tubes scrap (B 3080) for manufacturing of reclaim rubber. The applicant should submit the following documents with its application for next financial year:

- a. **Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.**
- b. **The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.**
- c. **Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.**
- d. **Declaration certifying that the imported waste tyres were used for the intended purpose.**

3.5. M/s AP Rubber Industries, Haridwar, Uttrakhand (F. No.23-91/2014-HSMD)

The application pertains to import of 5,000 MT of used rubber tyres scrap (multiple cuts/shreds/press baled) for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. UEPPCB/ROR/Con/A-45/2016/274 dated 17/05/2016 is valid up to 31/03/2021. The annual consented capacity as per CTO is 13,100 MT /month for Crumb Rubber and 6,250 MT/month for Crumb Rubber Modifier. The unit has work strength of 34 no. of employees. The date of establishment of the unit is 10/02/2004 and the actual date of operation is 10/06/2004. The unit has connected load of 425 KVA. Total electricity bill for 2019-20 is Rs. 93,38,952/-. The production of the unit in last 5 years is:

2015-16	3,622 MT
2016-17	3,176 MT
2017-18	3,172 MT
2018-19	3,692 MT
2019-20	3,019 MT

The unit has not exported any product. Total GST paid in FY 2019-20 is Rs. 1,09,03,608/-. The previous permission was given for the import of 3,600 MT of used rubber tyres scrap vide O.M. dated 23/04/2019 against which 2,741 MT has been imported. The site visit has been conducted on 21/04/2018.

The matter was last discussed in 99th Meeting of EC held in June, 2020 and the committee recommended to submit the site visit report of SPCB. Now, the applicant has submitted the site visit report of SPCB.

Recommendation: Based on the site inspection report submitted by SPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 1,180 MT of used rubber tyres scrap (B3080) for manufacturing of crumb rubber. The applicant should submit the following documents with its application for next financial year:

- a. **Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.**
- b. **The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.**
- c. **Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.**
- d. **Declaration certifying that the imported waste tyres were used for the intended purpose.**

3.6. M/s S.P. Rubbers, Chittoor, A.P. (F. No.23-234/2014-HSMD)

The application pertains to import of 10,000 MT of Old/used rubber tyres scrap & tube scrap (B 3080) for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate No. CTR-220/APPCB/ZO-KNL/CFO/2018 dated 18/05/2018 is valid up to 30/06/2021 and authorisation no. CTR-220/APPCB/ZO-KNL/CFO&HWM/2016-30 dated 11/04/2016 is valid up to 30/06/2021. The annual consented capacity as per CTO is 70 MTPD for crumb rubber. The unit has work strength of 17 no. of employees. The date of establishment of the unit and the actual date of operation is 16/11/2007. The unit has connected load of 150 HP. The electricity expenses for FY 2019-20 is Rs. 20,68,400/-. The production of the unit in last 5 years is:

2015-16	8,553 MT
2016-17	6,856 MT
2017-18	5,162 MT
2018-19	7,900 MT
2019-20	16,565 MT

The unit has not exported any rubber product. The GST paid in FY 2019-20 is Rs. 43,57,942/-. The previous permission was given for the import of 9,000 MT of used rubber tyres scrap vide O.M. dated 13/09/2018.

The matter was last discussed in 99th Meeting of EC held in June, 2020 and the committee recommended site visit by CPCB. Site visit was done on 30/10/2020 by CPCB. Now, CPCB has submitted the site inspection report to the Ministry indicating that unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 5,300 MT of Old/used rubber tyres scrap & tube scrap (B 3080) for manufacturing of crumb rubber. The applicant should submit the following documents with its application for next financial year:

- a. **Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.**
- b. **The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.**
- c. **Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.**
- d. **Declaration certifying that the imported waste tyres were used for the intended purpose.**

3.7. M/s Vinora Industries, Chennai, Tamil Nadu (F. No.23-136/2014-HSMD)

The application pertains to import of 8,000 MT of Waste, pneumatic and other tyres (B 3140) for manufacturing of reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate No. 170816943331 dated 16/05/2017 is valid up to 31/03/2027 and authorisation no. 16HFD6799859 dated 13/10/2016 is valid up to 12/10/2021. The annual consented capacity as per CTO is 1,250 MT per month for Crumb rubber modifier, 1,500 MT per month for crumb rubber and 4,000 MT per month for crumb rubber modified bitumen. The unit has work strength of 46 no. of employees. The date of establishment of the unit is 27/01/2009 and the actual date of operation is 9/02/2009. The unit has connected load of 1200 KVA. The electricity consumption for FY 2019-20 is 2,59,064 units. The production of the unit in last 5 years is:

2015-16	3450 MT
2016-17	3950 MT
2017-18	5850 MT
2018-19	6320 MT
2019-20	5840 MT

The unit has not exported any rubber product. The GST paid in FY 2019-20 is Rs. 1,16,96,365/-. The previous permission was given for the import of 8,000 MT of used rubber tyres scrap vide O.M. dated 03/05/2018.

The matter was last discussed in 99th Meeting of EC held in June, 2020 and the committee recommended site visit by CPCB. Site visit was done on 12/11/2020 by CPCB. Now, CPCB has submitted the site inspection report to the Ministry indicating that unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 2,020 MT of Waste, pneumatic and other tyres (B 3140) for manufacturing of reclaim rubber. The applicant should submit the following documents with its application for next financial year:

- a. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.
- b. The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.
- c. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.
- d. Declaration certifying that the imported waste tyres were used for the intended purpose.

3.8. M/s Tinna Rubber and Infrastructure Ltd, Kala Amb Plant, Himachal Pradesh

The application pertains to import of 3,000 MT of old/used rubber tyres scrap (B3140) for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate no. CTO/BOTH/RENEW/RO/2019/432347 dated 01/04/2019 is valid up to 31/03/2020. The annual consented capacity as per CTO is 9,150 MTA for Crumb rubber and 3,600 MTA for Fine Crumb Rubber. The unit has work strength of 32 no. of employees. The date of establishment of the unit is 23/05/2015 and the actual date of operation is 18/06/2015. The unit has connected load of 980 KW and electricity consumption of 13.66 lakhs Units during 2019-20. The GST paid in FY 2019-20 is Rs. 109.55 lakhs. The production of the unit in last 5 years is:

2015-16	693 MT
2016-17	239 MT
2017-18	-
2018-19	2,070 MT
2019-20	655 MT

The matter was last discussed in 99th Meeting of EC held in June, 2020 and the committee recommended site visit by CPCB. Site visit was done on 14/10/2020 by CPCB. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 660 MT of old/used rubber tyres scrap (B 3140) for manufacturing of crumb rubber.

The applicant should submit the following documents with its application for next financial year:

- a. **Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.**
- b. **The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.**
- c. **Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.**
- d. **Declaration certifying that the imported waste tyres were used for the intended purpose.**

3.9. M/s Parekh Rubber Company, Anand, Gujarat (F. No. 23-136/2015-HSMD)

The application pertains to import of 36,000 MT of Old/used rubber tyres scrap (B 3140) for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. AW-42649 dated 25/08/2020 is valid up to 30/06/2035. The annual consented capacity as per CTO is 9000 MT per month for Crumb rubber. The unit has work strength of 35 no. of employees. The actual date of operation is 22/04/2015. The unit has connected load of 250 KVA. The electricity consumption for FY 2019-20 is Rs. 17.43 lakhs. The production of the unit in last 3 years is:

2017-18	7726.4 MT
2018-19	53106.57 MT
2019-20	37296.8 MT

The unit has not exported any rubber product. The GST paid in FY 2019-20 is Rs. 94.32 lakhs. The previous permission was given for the import of 8,600 MT of used rubber tyres scrap vide O.M. dated 22/11/2018 out of which 8,600 MT has been imported.

The matter was last discussed in 97th meeting of Expert Committee held in June, 2019 and the committee recommended site visit by CPCB. Site visit was done on 17/06/2020 by CPCB. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the committee recommended import of 17,000 MT of Old/used rubber tyres scrap (B 3140) for manufacturing of crumb rubber. The applicant should submit the following documents with its application for next financial year:

- a. **Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.**
- b. **The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.**

- c. **Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.**
- d. **Declaration certifying that the imported waste tyres were used for the intended purpose.**

3.10. M/s Sohanlal Shantilal Jain, Palghar, Maharashtra (F. No.23-116/2015)

The application pertains to import of 8,500 MT of Old/used scrap/pairings, Rubber tyres, tubes scrap, moulded rubber scrap, conveyor belts scrap, rubber articles/pairing scrap, rubberized nylon/steel friction cord scrap, rubber lumps scrap, silicon rubber scrap (B3080) for manufacturing of reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. MPCB/SRO-THANE II/CONSENT/O/1804000949 dated 20/04/2018 is valid up to 31/07/2027. The annual consented capacity as per CTO is 450 MT per month for Crumb rubber, rubber chips, rubber granules, rubber mulch, 450 MT per month for Rubber Pad, 450 MT per month for Tyre Centre Belt, 450 MT per month for Tyre Side wall, 180 MT per month for Steel wire/metal and 180 MT per month for Uncured Rubber. The unit has work strength of 27 no. of employees.

The date of establishment of Maharashtra unit is February, 2018 and the actual date of operation is April, 2018. The unit has connected load of 100 KW. The electricity consumption for FY 2019-20 is Rs. 4,68,477/-. The production of the Maharashtra unit in last 2 years is:

2018-19	4254 MT
2019-20	3566 MT

The unit has not exported any rubber product. The GST paid in FY 2019-20 is Rs. 4,68,477. The previous permission was given for the import of 5,000 MT of used rubber tyres scrap vide O.M. dated 26/05/2016 for Gujarat unit.

The matter was last discussed in 95th meeting of Expert Committee held in March, 2019 and the Committee recommended for site visit by CPCB. Site visit was done on 23/10/2019 by CPCB. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is not complying with SOP and suggested some improvement.

Recommendation: Based on the additional information submitted by the applicant in accordance with recommendation of EWG report, the EC noted that the unit was earlier exists and operated in Gujarat and thereafter shifted to Palghar, Maharashtra and started its production only in April, 2018 after obtaining necessary permission/approvals from Maharashtra Pollution Control Board and. In view, EC opined that the unit is not fulfilling the criteria of at least 3 years of production track record for consideration of their application. Therefore, the EC recommended to defer the application stating that application along with all requisite details may be considered only in next financial year.

3.11. M/s SMP Rubber Mill, Godhra, Gujarat

The application pertains to import of 5,000 MT of used rubber tyres scrap (B 3140) for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. WH-28080 dated 19/02/2018 is valid till 23/03/2023. The consented capacity as per CTO is 180 MT per month for

Rubber strip & Powder. The unit has work strength of 8-10 no. of employees. The actual date of operation is 11/09/2017. The unit has connected load of 225 KV. The electricity consumption for FY 2019-20 is 1,14,334 Units. The production of the unit in last 3 years is:

2017-18	160 MT
2018-19	350 MT
2019-20	330 MT

The unit has not exported any rubber product. The GST paid in FY 2019-20 is Rs. 8,55,094/-. The matter was last discussed in the 93rd meeting of Expert Committee held in November, 2018 and the Committee recommended for site visit by CPCB. Site visit was done on 18/04/2019 by CPCB. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is not fully complying with SOP and suggested some improvement.

Recommendation: Based on the site inspection report submitted by CPCB, some improvement has been suggested by CPCB. The EC recommended that no import should be permitted unless the improvement has been made by the applicant and verified by CPCB. On receipt of verification report from CPCB stating compliance of SOP, the total quantity of 100 MT of used rubber tyres scrap (B3140) for manufacturing of crumb rubber may be granted without referring the application to the committee.

3.12. M/s Rubix International Pvt. Ltd, Rajkot, Gujarat (F. No. 23/13/2018-HSMD)

The application pertains to import of 12,000 MT of used rubber tyres scrap and tubes scrap (B 3080) for manufacturing of reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. AWH-80494 dated 19/07/2016 is valid up to 06/06/2021. The annual consented capacity as per CTO is 2000 MT per month for Reclaim Rubber. The unit has work strength of 13 no. of employees. The date of establishment of the unit is 22/09/2014 and the actual date of operation is 30/04/2015. The unit has connected load of 450 KVA. Total electricity consumption for 2019-20 is 302529 units. The production of the unit in last 5 years is:

2015-16	Nil
2016-17	69 MT
2017-18	271 MT
2018-19	1,840 MT
2019-20	6,886 MT

The unit has not exported any product yet. The previous permission was given for the import of 8,000 MT of used rubber tyres scrap/tube scrap vide O.M. dated 14/05/2018 against which 5,143 MT has been imported.

The matter was last discussed in 99th Meeting of EC held in June, 2020 and the committee recommended site visit by CPCB. Site visit was done on 17/10/2020 by CPCB. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is not fully complying with SOP and suggested some improvement.

Recommendation: Based on the site inspection report submitted by CPCB, some improvement has been suggested by CPCB. The EC recommended that no import should

be permitted unless the improvement has been made by the applicant and verified by CPCB. On receipt of verification report from CPCB stating compliance of SOP, the total quantity of 2,100 MT of used rubber tyres scrap and tubes scrap (B3080) for manufacturing of reclaim rubber may be granted without referring the application to the committee.

3.13. M/s Zenish Reclamation, Morbi, Gujarat (F. No. 23-129/2013-HSMD)

The application pertains to import of 6,000 MT of Used rubber tyres scrap/ Butyl tubes scrap (B 3080) for manufacturing of reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. AWH-101874 dated 24/05/2019 is valid up to 24/04/2024. The annual consented capacity as per CTO is 1,000 MT per month for Reclaim Rubber and rubber products. The unit has work strength of 36 no. of employees. The date of establishment of the unit and the actual date of operation is 12/02/2014. The unit has connected load of 700 KVA. Total electricity bill during Jan,2020-April,2020 is Rs. 24,00,761/-. The production of the unit in last 5 years is:

2015-16	696 MT
2016-17	348 MT
2017-18	5,825 MT
2018-19	3,744 MT
2019-20	3,924MT

The unit has exported rubber mat of Rs. 12,19,75,786 in 2019-20. The previous permission was given for the import of 4,500 MT of used rubber tyres scrap vide O.M. dated 19/09/2014 against which 1,342 MT has been imported.

The matter was last discussed in 99th Meeting of EC held in June, 2020 and the committee deferred the application for want of site inspection report by CPCB. Site visit was done on 22/12/2020 by CPCB. Now, CPCB submitted the site inspection report to the Ministry indicating that is not fully complying with SOP and suggested some improvement.

Recommendation: Based on the site inspection report submitted by CPCB, some improvement has been suggested by CPCB. The committee recommended that no import should be permitted unless the improvement has been made by the applicant and verified by CPCB. On receipt of verification report from CPCB stating compliance of SOP, the total quantity of 1,860 MT of used rubber tyres scrap and tubes scrap (B3080) for manufacturing of reclaim rubber may be granted without referring the application to the committee.

3.14. M/s Pipania Sag Industries, Kashipur, Uttarakhand

The application pertains to import of 2,000 MT of used rubber tyres scrap (B 3080) for manufacturing of crumb rubber reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. AWH-17541 dated 29/08/2017 is valid up to 31/03/2020. The annual consented capacity as per CTO is 50 MT per month for crumb rubber and 240 MT per month for Reclaim Rubber. The unit has work strength of 16 no. of employees. The date of establishment of the unit is 15/03/2010 and the actual date of operation is 21/03/2010. The unit has connected load of 500 KVA. Total electricity bill during 2019-20 is Rs. 1,52,17,268/-. The production of the unit in last 5 years is:

2015-16	1,988 MT
2016-17	2,364 MT
2017-18	2,507 MT
2018-19	2,917 MT
2019-20	2,374 MT

The unit has not exported any rubber product. Total GST paid in FY 2019-20 is Rs. 1,54,59,223/- The matter was last discussed in 99th Meeting of EC held in June, 2020 and the committee deferred the application for want of site inspection report by CPCB. Site visit was done on 03/01/2021 by CPCB. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 935 MT of used rubber tyres scrap (B 3080) for manufacturing of crumb rubber reclaim rubber. The applicant should submit the following documents with its application for next financial year:

- a. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.
- b. The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.
- c. Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.
- d. Declaration certifying that the imported waste tyres were used for the intended purpose.

3.15. M/s A One Rubber Industries, Sonipat, Haryana (F. No.23-67/2016-HSMD)

The application pertains to import of 15,000 MT of used rubber tyres scrap (B3080) for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. HSPCB/Consent/:313304117SONCTO3509939 dated 06.01.2017 is valid up to 31.03.2027. The annual consented capacity as per CTO is 45,000 MTA for Rubber crumb and its derived products. The unit has work strength of 12 no. of employees. The date of establishment of the unit is 24/03/2015 and the actual date of operation is 25/03/2016. The unit has connected load of 105 KW. Total electricity bill during Dec, 2018- July, 2019 is Rs. 33,31,531/-. The production of the unit in last 5 years is:

2015-16	33 MT
2016-17	5,036 MT
2017-18	13,526 MT
2018-19	12,185 MT
2019-20	9,087 MT

The unit has not exported any rubber product. The GST paid in FY 2019-20 is Rs.46,06,140.90/. The matter was last discussed in 99th Meeting of EC held in June, 2020 and the committee recommended for site visit by CPCB. Site visit was done on 31/12/2020 by CPCB. Now, CPCB submitted the site inspection report to the Ministry indicating that is not fully complying with SOP and suggested some improvement.

Recommendation: Based on the site inspection report submitted by CPCB, some improvement has been suggested by CPCB. The committee recommended that no import should be permitted unless the improvement has been made by the applicant and verified by CPCB. On receipt of verification report from CPCB stating compliance of SOP, the total quantity of 4,300 MT of used rubber tyres scrap (B3080) for manufacturing of crumb rubber may be granted without referring the application to the committee.

3.16. M/s Green Rubber Industries, Sonipat, Haryana (F. No. 23-229/2014-HSMD)

The application pertains to import of 45,000 MT of used rubber tyres scrap/butyl tube scrap (B3080) for manufacturing of crumb rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate No. HSPCB/Consent/: 313299621SONCTO8575981 dated 12/01/2021 is valid up to 31/12/2021 and authorisation no. HSPCB/HW/2017/1070 dated 08.02.2017 is valid up to 07.02.2022. The consented capacity as per CTO is 40 MT/day for Mesh Crumb Rubber. The unit has work strength of 15 no. of employees. The date of establishment of the unit is FY 2014-15 and the actual date of operation is FY 2015-16. The unit has connected load of 245 KW. The electricity consumption has not been mentioned. The production of the unit in last 5 years is:

2015-16	866 MT
2016-17	5,210 MT
2017-18	7,404 MT
2018-19	19,115 MT
2019-20	7,995 MT

The unit has not exported any rubber product. The GST paid in FY 2019-20 is Rs.90 lacs. The previous permission was given for the import of 9,000 MT of used rubber tyres scrap vide O.M. dated 25/04/2019 against which 9,000 MT has been imported.

The matter was last discussed in 99th Meeting of EC held in June, 2020 and the committee recommended site visit by CPCB. Site visit was done on 31/12/2020 by CPCB. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the committee recommended import of 6,100 MT of used rubber tyres scrap/butyl tube scrap (B3080) for manufacturing of crumb rubber. The applicant should submit the following documents with its application for next financial year:

- a. Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.

- b. **The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.**
- c. **Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.]**
- d. **Declaration certifying that the imported waste tyres were used for the intended purpose.**

3.17. M/s SNR Reclamations Pvt. Ltd, Ludhiana (F. No.23-86/2015-HSMD)

The application pertains to import of 10,000 MT of used rubber tyres scrap/butyl tube scrap (B3080) for manufacturing of butyl reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate No. CTOW/Varied/LDH1/2019/8423338 dated 08/05/2019 is valid up to 30/06/2023 and authorisation no. HWM/Fresh/LDH1/2017/5157021 dated 16/02/2017 is valid up to 15/02/2022. The consented capacity as per CTO is 80 MT/day for Rubber reclaim sheet Butyl Reclaim. The unit has work strength of 30 no. of employees. The actual date of operation is 21/03/2014. The unit has connected load of 800 KW. The electricity consumption for FY 2019-20 is Rs. 1,25,20,325/-. The production of the unit in last 5 years is:

2015-16	740.10 MT
2016-17	1110.050 MT
2017-18	2396 MT
2018-19	3961.875 MT
2019-20	7336.247 MT

The unit has not exported any rubber product. The GST paid in FY 2019-20 is Rs. 43,62,837. The previous permission was given for the import of 1,100 MT of used butyl rubber tube scrap vide O.M. dated 22/11/2018.

The matter was last discussed in 97th Meeting of EC held in June, 2019 and the committee recommended site visit by CPCB. Site visit was done on 02/07/2020 by CPCB and CPCB suggested some improvement. Now, CPCB informed that the unit has carried out improvement as suggested during the inspection and as proof submitted the photographs and video. Now, the unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 2,350 MT of used rubber tyres scrap/butyl tube scrap (B3080) for manufacturing of butyl reclaim rubber. The applicant should submit the following documents with its application for next financial year:

- a. **Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.**
- b. **The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.**

- c. **Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.]**
- d. **Declaration certifying that the imported waste tyres were used for the intended purpose.**

3.18. M/s Devlon Petrosilks Pvt. Ltd, Kashipur, Uttarakhand

The application pertains to import of 2,000 MT of used rubber tyres scrap/butyl rubber tube scrap (B3080) for manufacturing of reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. UEPPCB ROK/Con D- 25/16/3694-674 dated 20/12/2016 is valid up to 31/03/2021. The consented capacity as per CTO is 250 MT/ month for Reclaimed Rubber. The unit has work strength of 18 no. of employees. The actual date of operation is 02/03/2014. The unit has connected load of 368 KVA. The electricity consumption for FY 2019-20 is Rs. 80,83,555/-. The production of the unit in last 5 years is:

2015-16	777.178 MT
2016-17	1279.271 MT
2017-18	267.530 MT
2018-19	Nil
2019-20	100.932 MT

The unit has not exported any rubber product. The GST paid in FY 2019-20 is Rs. 74,94,212.84/-. The matter was last discussed in 96th Meeting of EC held in April, 2019 and the committee recommended site visit by CPCB. Site visit was done on 04/01/2021 by CPCB. Now, CPCB submitted the site inspection report to the Ministry indicating that unit is complying with SOP.

Recommendation: Based on the site inspection report submitted by CPCB and additional information submitted by the applicant in accordance with recommendation of EWG report, the EC recommended import of 410 MT of used rubber tyres scrap/butyl rubber tube scrap (B3080) for manufacturing of reclaim rubber. The applicant should submit the following documents with its application for next financial year:

- a. **Site visit report by concerned SPCB/PCC inter-alia including total area of the Unit, details of equipment installed, assessment of capacity of unit, the quantity processed, power load and consumption in previous financial year.**
- b. **The balance sheet of unit showing the electricity charges/chartered engineer certificate for any alternate source of energy.**
- c. **Report of unit showing quantity imported and quantity procured indigenously, quantity of various products manufactured and sold.]**
- d. **Declaration certifying that the imported waste tyres were used for the intended purpose.**

3.19. M/s Shree Sadanand Rubber Industries, Jhajjar, Haryana (F. No.23-145/2016-HSMD)

The application pertains to import of 17,000 MT of used rubber tyres & tubes scrap (B3080) for manufacturing of tyre chip & Mulch/Granules. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate HSPCB/Consent/: 329805016JHACTOHWM3308762 dated 14/10/2016 is valid up to 31/03/2021 and authorisation no. HSPCB/HW/2017/1074 dated 08/02/2017 is valid up to 07/02/2022. The annual consented capacity as per CTO is 200 MT per/day for Rubber Chips and Granules. The unit has work strength of 36 no. of employees. The date of establishment of the unit is 01/04/2016 and the actual date of operation is 14/10/2016. The unit has connected load of 120 KW. Total electricity bill during 2019-20 is Rs. 23,05,422/-. The production of the unit in last 5 years is:

2015-16	Nil
2016-17	470 MT (Trial)
2017-18	15,875 MT
2018-19	26,710 MT
2019-20	6,510 MT

The unit has not exported any rubber product. The previous permission was given for the import of 17,500 MT of used rubber tyres scrap vide O.M. dated 11/05/2018 against which 17,275 MT has been imported.

The matter was last discussed in 99th Meeting of EC held in June, 2020 and the committee recommended site visit by CPCB. Site visit was done on 08/01/2021 by CPCB. Now, CPCB submitted the site inspection report to the Ministry indicating that is not fully complying with SOP and suggested some improvement.

Recommendation: Based on the site inspection report submitted by CPCB, some improvement has been suggested by CPCB. The committee recommended that no import should be permitted unless the improvement has been made by the applicant and verified by CPCB. On receipt of verification report from CPCB stating compliance of SOP, the total quantity of 8,500 MT of used rubber tyres & tubes scrap (B3080) for manufacturing of tyre chip & Mulch/Granules may be granted without referring the application to the committee.

3.20. M/s Wheelstone Rubbers LLP, Morbi, Gujarat (F. No.23-54/2018-HSMD)

The application pertains to import of 24,000 MT of Butyl rubber tyre/tubes scrap (B3080) for manufacturing of reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. AWH-27162 dated 24/01/2018 is valid up to 05/01/2023. The annual consented capacity as per CTO is 1,000 MT per month for Reclaim Rubber and 1,000 MT per month for Crumb Rubber. The unit has work strength of 17 no. of employees. The date of establishment of the unit is 06/11/2015 and the actual date of operation is 09/01/2017. The unit has connected load of 255 KVA. Total electricity bill for FY 2019-20 is Rs. 13,94,104/-. The production of the unit in last 4 years is:

2016-17	613.30 MT
2017-18	3230.30 MT
2018-19	3470.50 MT
2019-20	4691.60 MT

The unit has not exported any rubber product. The previous permission was given for the import of 4,000 MT of butyl rubber tyre/tubes scrap vide O.M. dated 05/07/2018 against which 4,000 MT has been imported. The unit has not been visited by CPCB yet.

Recommendation: Since the unit has not been visited yet by CPCB, the EC therefore, recommended site visit by CPCB when the plant is in operation.

3.21. M/s Astra Corporation, Mohali, Punjab (F. No. 23-102/2015-HSMD)

The application pertains to import of 2,000 MT of used Butyl tubes scrap (B3080) for manufacturing of reclaim rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate no. CTOA/Varied/SAS/2019/10212238 dated 11/08/2019 valid up to 30/06/2024 and authorisation no. HWM/Fresh/SAS/2018/8149678 dated 06/08/2018 is valid up to 30/06/2023. The consented capacity as per CTO is 20 MT per day for Butyl Reclaimed Rubber. The unit has work strength of 69 no. of employees. The actual date of operation is 04/09/2006. The unit has connected load of 997.75 KW. Total electricity bill for FY 2019-20 is Rs. 18,06,930/-. The production of the unit in last 4 years is:

2016-17	3708.744 MT
2017-18	4119.506 MT
2018-19	3269.200 MT
2019-20	2564.246 MT

The unit has not exported any rubber product. The previous permission was given for the import of 1,300 MT of butyl rubber tyre/tubes scrap vide O.M. dated 22/11/2018 against which 351 MT has been imported. The unit has not been visited by CPCB yet.

Recommendation: Since the unit has not been visited yet by CPCB, the EC therefore, recommended site visit by CPCB when the plant is in operation.

3.22. M/s Elgi Rubber Company Limited, Kerala

The application pertains to import of 8,000 MT of Devalved Butyl Scrap tubes (B3140) for manufacturing of Butyl reclaimed rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. PCB/PLKD/IC/CVO/103/2019 dated 17/05/2019 is valid up to 30/06/2023. The consented capacity as per CTO is 6,000 MTA for Devalved Butyl Scrap tubes. The unit has work strength of 66 no. of employees. The date of establishment is 01/01/1995 and the actual date of operation is 29/09/1995. The unit has connected load of 1000 KVA. Total electricity consumption for FY 2019-20 is 23,24,592 KVA. The total GST paid in FY 2019-20 is Rs. 2,97,65,806/-. The production of the unit in last 5 years is:

2015-16	2985 MT
2016-17	2753 MT
2017-18	2514 MT
2018-19	2719 MT
2019-20	2976 MT

The unit has not exported any rubber product. The unit has not been visited by CPCB yet.

Recommendation: Since the unit has not been visited yet by CPCB, the EC therefore, recommended site visit by CPCB when the plant is in operation.

3.23. M/s Vaibhav Rubbers Pvt Ltd, Raigad, Maharashtra

The application pertains to import of 8,000 MT of Used Tyre Scrap (B 3080) for manufacturing of Crumb Rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. MPCB/ROR/Amend/Consent-RO-Raigad/Consent Amendment/1906000026 dated 17/06/2019 is valid up to 31/05/2021. The consented capacity as per CTO is 2,000 MT/month for Crumb Rubber, 300 MT/month for Tyre Cut Piece and 2000 MT/month for Forming Glass Waste Power. The unit has work strength of 20 no. of employees. The year of establishment is 2007 and the year of operation is 2009. The unit has connected load of 400 KW. Total electricity consumption for Fy 2019-20 is 21 lakhs. The total GST paid in FY 2019-20 is Rs. 56 lakhs. The production of the unit in last 5 years is:

2015-16	10,500 MT
2016-17	9,000 MT
2017-18	8,000 MT
2018-19	9,200 MT
2019-20	8,800 MT

The unit has not exported any rubber product. The unit has not been visited by CPCB yet.

Recommendation: Since the unit has not been visited yet by CPCB, the EC therefore, recommended site visit by CPCB when the plant is in operation.

3.24. M/s Diamond Rubber Industries, Rangareddy District, Telangana

The application pertains to import of 58,100 MT of Used Tyre Scrap/tube scrap (B3080) for manufacturing of Crumb Rubber. The applicant has furnished Form 5, Process flow chart indicating adequate pollution control Equipment. The consent to operate and authorisation no. 793-MHB/TSPCB/ZOH/CFO/TS-iPASS/2020-115 dated 18/07/2020 is valid up to 31/10/2024. The consented capacity as per CTO is 58,100 MT/Annum for Rubber Mulch/Rubber Granules/Rubber Crumb. The unit has work strength of 12 no. of employees. The date of establishment is 06/07/2000 and the date of operation is 10/11/2000. The unit has connected load of 150 KW. Total electricity consumption for FY 2019-20 is 80,511 units. The total GST paid in FY 2019-20 is Rs. 43 lakhs. The production of the unit in last 5 years is:

2015-16	837.6 MT
2016-17	1060.90 MT
2017-18	2070.260 MT
2018-19	2177.05 MT
2019-20	2024.038 MT

The unit has not exported any rubber product. The unit has not been visited by CPCB yet.

Recommendation: Since the unit has not been visited yet by CPCB, the EC therefore, recommended site visit by CPCB when the plant is in operation.
