

## LIST OF PROJECTS COMPLETED DURING 2003-2004

Sl. No.	Title of the Project	Name of the organisation
<b>Environment Research Program</b>		
1	Environmental monitoring and ecological impact assessment of asbestos.	Industrial Toxicology Research Centre, Lucknow-226001
2	Metal removal by fungi-an environmental perspective.	Delhi University, Delhi-21
3	Development of new polymeric materials for the management of water, soil and mining system.	Department of Chemistry Himachal Pradesh University Shimla-171005
4	Management of major insect pests of rice agro-eco-system with eco-friendly neem-based formulations.	Department of Entomology Punjab Agriculture University, Ludhiana-141004
5	Studies on the impact of industrial effluents and sludge on earthworm and the potential of tolerant strain in environment	Industrial Toxicology Research Centre, Lucknow-226001
6	Fabrication of low cost hospital waste incinerator and performance evaluation	Madurai Kamraj University, Madurai-625021
<b>Ecosystem Research Scheme</b>		
1.	Ecology of Cyanophages and their use as potential biological control Agents of nuisance Cyanobacterial Blooms (Blue green Algae) in fresh water bodies.	Institute of Microbiology & Biotechnology, Barkatullah University, Bhopal, Madhya Pradesh.
2.	Ecological Analysis of Plant Diversity in Central Highlands.	Department of Botany Banaras Hindu University Varanasi-221 005, U.P.
3.	Ecological and Faunistic Survey of Homopteran pests (Leaf & Planthoppers) from Rice fields, Grasslands and Wetlands of Sagar Island and Adjacent Namkhana Delta Lobe of Sunderbans, West Bengal	S.D. Marine Biological Research Institute, Bamankhali, Sagar Island, Sundarbans South 24-Parganas, West Bengal-743 373.
