Ref: F. No. 8-14/2004-FP (Vol-2) dated 27/08/2015 of the Dy. Inspector General (FP).

Sir,

I am directed to communicate that presently, the movement of timber and timber products are being regulated as per order dated 12/05/2001 of Hon'ble Supreme Court. The details of the existing procedure and proposed change suggested by the State in connection with above-mentioned reference are given below:-

**Existing procedure:** For transport of timber in any form within the North-eastern State is permitted. Similarly, such timber within the North-eastern State may be transported by any means of transport on the strength of transit pass/re-transit pass. Further, movement of timber and timber products including sawn timber, veneer, plywood etc from NE State shall be permitted to transport only by rail from the designated railway station and if sourced from the HPC cleared sawmill.

**Proposed change:** Movement of timber outside the NE State should be allowed by road as well as railway without any regulations by the SIT (constituted pursuant to Hon'ble Supreme Court's order dated 13.1.2000 in W.P. (C) No.202/95). The existing system for movement of timber within the NE State may continue.

**Existing procedure:** Allotment of railway wagons for transportation of sawn timber and moulding beats/frames outside the State are being regulated by the SIT, New Delhi. At present 25 wagons are allotted in each of the quarter permitted to be loaded from Dharmanagar railway station.

**Proposed change:** SIT, New Delhi may be requested to consider Agartala Railway station and Udaipur Railway station as designated loading station in addition to existing loading station at Dharmanagar railway station. Considering the availability of timber the allotment of wagon may be increased from 25 to 40 in each quarter.

2. I am further directed to request you to please take the needful action for modification of existing procedure in the light of proposed change for easy movement of timber from the State.

Yours faithfully,
