The matter was last discussed in 108th meeting of EC held on 21st & 22nd October, 2021 and the recommendation of the Committee is mentioned below:

“The EC recommended export of 20,00,000 MT (B1200) of Blast Furnace Granulated Slag from India to UAE, Bangladesh, Egypt and South Africa.”

However, during the preparation of permission letter it was came to notice that the applicant has submitted sales contract with UAE only. Also, the sales contract and insurance policy is in the name of Gypcocem Industries LLP. Therefore, the applicant vide email dated 7th December, 2021 was requested to provide explanation for the same and also submit the sales contract with Bangladesh, Egypt and South Africa.

Now, the applicant vide email dated 10th February, 2022 has submitted the following:

“At present AMNSI don’t export directly to any customer out of India. This is due to restriction of Customs department for filing shipping bill because of non-availability of permission from MoEF&CC. Currently, our every Granulated Blast Furnace Slag (GBFS) external sales auction is in domestic channel only. However, traders are taking material from us to export it from Adani Port and traders are convincing the customs department based on our BF slag export approval request application submitted to your office. Due to this administrative problems, we are unable to export much quantity.

For our traders, Number of Customers / Names of the customers & exporting countries are not fixed as, it is done on spot sales basis with reference to market acceptability & customer’s order/payment confirmations. On the similar lines when AMNS will start its direct export, our

sales will be on FOB basis & customer will place vessel. So, we can be open to accept any interest to export Granulated Blast Furnace Slag (GBFS) from Hazira, Surat, India.

However, to comply with the requirement of MoEF&CC, submitting letters from our regular customers Cemcoa (Export Customer) & SSIPL (Domestic Customer). Both the companies are sister concerns. Basically, they will export our BF slag to cement industries in UAE, Bangladesh, Egypt, Qatar, Sri Lanka & South Africa. We are assuring that we will submit the complete export order details i.e. quantity, country & customers while we come for the next renewal. This will enable to improve our export by which we can comply the requirements of GPCB as well as MoEF&CC EC conditions.”
