The matter was first discussed in 142nd meeting of EC and based on the information/details submitted by the applicant, the EC after deliberation on the proposal, recommended import of 1,500 MT of old/used rubber tyre scrap/tube scrap (B3140). Further, the above recommended quantity was to be granted after submission of site visit report by CPCB stating compliance of SOP without referring the application to the EC. Thereafter, the applicant vide email dated 20th March, 2024 has requested to reconsider the decision of the committee and recommend quantity as per the decision taken in 87th meeting of Technical Review Committee for grant of higher quantity of waste tyre, in excess of the existing ad-hoc policy of allowing quantity of 1,500 MT.

The matter was reconsidered in 144th EC, EC after deliberation on the proposal, recommended CPCB may check and verify compliance of SOP and conditions recommended by the Technical Review Committee (TRC) in its 87th meeting held on 17th May, 2024, in case of new waste tyre recycling units established by the existing recycling companies, for recommendation of higher quantity of waste tyre, in excess of the existing ad-hoc policy of allowing quantity of 1,500 MT. Till then matter is deferred.

Now, CPCB forward the inspection report stating that unit is complying with SOP and permission letter dated 27.02.2026 for the 1500 MT quantity has already been issued.

Therefore, in view, the matter is placed before the EC for consideration and further deliberation.

The unit was granted permission vide letters dated 03.06.2025 and 28.10.2025 for import of 5,526 MT of used/old rubber tyre scrap/tube scrap during FY 2025–26. Clarification was sought regarding grant of permissions within the same financial year.

The applicant has submitted that the earlier NOC (dated 03.06.2025, subject to 50% CPCB condition) was based on FY 2024–25 consumption and has been fully utilized. Further, due to shortage of raw material, the applicant has filed a fresh application on 13.03.2026 based on FY 2025–26 consumption, supported by CA certificate (up to February 2026), and has requested grant of fresh NOC at the earliest.

The matter was discussed in 154 EC meeting held on the 7th March, 2026. EC was opined that instead considering fresh application at this stage, the validity of existing permission may be extended for 6 months. Therefore, EC after deliberation on the proposal recommended extension of validity for 06 months from the date of expiry of the permission granted for import of 30,000 MT of 35.1- Exhaust Air or Gas cleaning residue vide letter dated 24th March, 2025 i.e. up to 23rd March, 2027.

However, while processing the file it is noted that the applicant has erroneously attached the previous permission letter of the Ludhiana unit instead of the Tiruvallur unit. The correct permission letter for this unit is dated 09th August, 2024.

In view of the above, the matter is placed before the EC for re-consideration and further deliberation.

Request for grant of amendment in export permission
